REGULAR AGENDA

15. Commissioner reports.

Commissioner Mike Rotkin announced that the Democratic Women's Club of Santa Cruz County will hold a forum at the Santa Cruz Policy Community Room on Feb 8th at 10:00am. RTC staff and Friends of the Rail and Trail will present on planned improvements to the rail corridor.

16. Director's Report.

Executive Director Guy Preston reported on the recent staff appointments; the upcoming groundbreaking celebration of Segment 7, Phase 1 of the coastal rail trail; City of Watsonville is expected to award a contract for construction on Segment 18 on January 21st. Regarding Highway 1 projects, bus-on-shoulder/auxiliary lane plans are consistent with the direction of the state and are expected to compete well for SCCP funding. Project from 41st Avenue to Soquel Avenue in final design; Second and third projects from State Park to Bay Porter and from Freedom to State Park are progressing pending environmental clearance. TIG/m trolley demonstration postponed to October.

Responding to public comment, Mr. Preston noted that while California bill AB 2363 is not specifically on the RTC legislative agenda the transportation safety issues addressed by the bill are and the RTC can communicate a position on AB 2363 accordingly and any other bills that may address those issues. Commissioners requested that given the TIG/m demonstration delay, that a full demonstration be in Watsonville be reconsidered and pursued.

17. Caltrans report.

Aileen Loe reported that Caltrans is accepting comments on the California Freight Mobility Plan until the end of the month. On January 8, 2020, Governor Newsom signed M-23-20 to fight homelessness in the state of California, assigning roles to the various agencies; Caltrans' role is to assist in the leasing of property adjacent to highways and working with partners to aid in people's transition to safer shelters. Pedestrian Safety Enhancement projects were pushed from February to April due to the addition of five locations on Highway

9 and will utilize Highway Safety Improvement Program (HSIP) funds. Prioritization of Highway 152 project was reflected in the contractor agreement; funding is committed and construction is anticipated for construction in spring 2022; Drainage work will begin next week to address ponding on Highway 9 and Graham Hill Road. Other projects to be completed soon: striping widening, pavement preservation, and pedestrian safety.

Commissioners stressed the need for counterparts in south Santa Clara County to prioritize safety improvements to Highway 17.

Received public comment from:

Michael Saint, Campaign for Sustainable Transportation

18. **10:00 A.M. PUBLIC HEARING** Draft 2020 Measure D Strategic Implementation Plan.

Executive Director Guy Preston delivered the staff report. The purpose of the Strategic Implementation Plan (SIP) is to define the scope, cost, and delivery schedule of regional projects and programs. A central theme of this year's inaugural SIP is leveraging. Mr. Preston discussed strategies for leveraging funds in the short and long term and more funding opportunities with the funding programs under SB-1. The current plan has a short-term focus of 5 years. Each year the plan will be updated to program one additional year, and the plans can be amended as need arises. The Request for Proposals (RFP) for the Freedom to State Park Drive Auxiliary Lane/Bus-on-Shoulder project has been released. The RTC solicited extensive public input on the SIP and recommended a public hearing.

Mr. Preston explained the strategic factors which enable RTC to leverage Measure D funds, comparing pay-as-you-go, bonding, financing, and grant funding. Measure D expected to bring in \$760 million; with successful leveraging, the RTC could deliver several billion dollars' worth of projects over the 30-year time period. Voter patience will be key as most projects require multiple years of planning before implementation. Mr. Preston's experience leveraging self-help county funds 5 to 1 for transportation projects in Sonoma County lent credence to the SIP.

Commissioner comments: the Unified Corridor Study can be used to leverage funds; benefits of borrowing from ourselves over borrowing from others; regular updates to the funding strategy; response to public input; the simplified document helpful as an elevator pitch.

Received public comment from:

Ray Cancino, Community Bridges
Rick Longinotti, Campaign for Sustainable Transportation
Michael Saint, Campaign for Sustainable Transportation
David Date, La Selva Beach
Ryan Sarnataro, Live Oak
Brian Peoples, Executive Director of Trail Now

Bryan Largay
Sally Arnold, Board Chair of Friends of the Rail and Trail

Commissioner Comments: stressed voter approval of Measure D, which includes auxiliary lane projects. The Commission directed staff to respond to today's public comments at the next meeting. Many commenters have observed that the planned improvements are very costly and questioned whether they are realistic given the revenue expected from Measure D. The passage of SB-1 soon after Measure D granted further opportunity to improve transit for motorists, bicyclists, and pedestrians in Santa Cruz County.

Commissioner Alternate Schiffrin motioned and Commissioner Gonzalez seconded to continue the item to the next meeting and direct staff to respond to public comments on this item at that meeting. The motion passed unanimously, with Commissioners Bertrand, Brown, Coffman-Gomez, Caput, Leopold, McPherson, Johnson, Rotkin, Gonzalez, and Commissioner Alternates Lind, Schiffrin, and Mulhearn voting "aye."

19. City of Santa Cruz Public Works Department – oral report.

Assistant Public Works Director Chris Schneiter reported on the status of several RTC-funded projects to include: Highway 1 and 9 improvement project. River & Water Street pavement rehabilitation. ,MBSST Trails. and Pacific Avenue sidewalk and beach area improvements.

20. Transit Corridor Alternatives Analysis Communications and Stakeholder Involvement Plan.

Communications Specialist Shannon Munz presented the staff report, asking for input and approval of the Stakeholder Involvement Plan (SIP).

Received public comment from:

Sally Arnold, Friends of the Rail and Trail
Manu Koenig, Candidate for Supervisor
Michael Saint, Campaign for Sustainable Transportation
Mark Mesiti-Miller

Commissioner Comments: stressed the importance of early notice to allow time for public review and responded to concerns that input on the Alternatives Analysis will be ignored; public input is taken; of the purpose of the Alternatives Analysis is to develop a financially feasible option for the Commission and the Transit Board to consider; weighed the pros and cons of focus group data gathered from interested/knowledgeable parties, and more far-reaching data collected by polling and surveys; RTC's outreach plan represents a good-faith effort to solicit public participation in the Alternatives Analysis.

Commissioner Alternate Schiffrin made a motion to approve the staff recommendation to review, provide input and approve the Communications and Stakeholder Involvement Plan for the Transit Corridor Alternatives Analysis.. Commissioner Brown seconded the motion. The motion passed unanimously

with Commissioners Bertrand, Brown, Coffman-Gomez, Caput, Leopold, McPherson, R. Johnson, Rotkin, Gonzalez, and Commissioner Alternates Lind, Schiffren, and Mulhearn voting "aye."

27. Meeting Adjourned at 11:29 a.m.

Next meetings.

The next RTC meeting is scheduled for Thursday, February 6, 2020 at 9:00 a.m. at the Watsonville City Council Chambers, 275 Main Street, Room 400, Watsonville, CA.

The next Transportation Policy Workshop meet is scheduled for Thursday, February 20, 2020 at 9:00 a.m. at the RTC Offices, 1523 Pacific Avenue, Santa Cruz, CA.

Respectfully Submitted,

19 CITY OF SANTA CRUZ DOWNTOWN BUS PASS ORAL PRESENTATION

Barrow Emerson, Planning and Development Director, introduced Claire Fliesler of the City of Santa Cruz who distributed a small brochure to the assembly (attached) and spoke about the conditions that led to the program and the program itself. The program has been extended to full and part time employees with a goal to reduce solo driving to less than 50%. A countywide expansion will be launching this spring. The City is currently looking for a park and ride location in Watsonville/Airport Boulevard area.

Director McPherson applauded the Parking District and City for implementing this program. He and Chair Bottorff suggested METRO write a letter commending their actions.

Director Coffman-Gomez suggested METRO promote this program on the buses. Ms. Fliesler will follow up with METRO and work with her marketing team to promote.

Director Meyers added that 18% of the targeted 4,000 downtown employees have joined the program.

Ex-Officio Director Northcutt inquired as to the emergency ride home program. Ms. Fliesler explained the program intention; i.e., to be used as a safety net under certain conditions, not typically used for quick rides around town.

Ms. Fliesler will provide Mr. Emerson with additional statistics to forward to the board members.

Public comment:

Monica McGuirre requested bike lanes be added to the program.

Jessica Evans, City of Santa Cruz resident, appreciates the program and looks forward to the countywide launch.

20 ORAL PACIFIC STATION UPDATE

Barrow Emerson, Planning and Development Director, provided a brief update on the status of Pacific Station.

Vice Chair Rotkin inquired as to the redevelopment funds, which may or may not be available to the City of Santa Cruz. Director Mathews said they remain hopeful, as this has not yet been finalized.

There was no public comment.

21A CONSIDERATION OF APPROVING THE AUTHORIZATION AND FUNDING OF A PURCHASING MANAGER POSITION – PULLED FROM CONSENT BY CHAIR BOTTORFF TO BE COMBINED WITH 9-15 AND BECOME AGENDA ITEM 21A

Accepting Applications for the Diesel Engine

Replacement Grant Program

Monterey, California – January 22, 2020

The Monterey Bay Air Resources District (MBARD) is pleased to announce that it is now accepting applications for grant funds through the Diesel Engine Replacement Grant Program. Grant applications can be downloaded from MBARD's website at <https://www.mbard.org/diesel-engine-replacement-grants>

"MBARD implements the Diesel Engine Replacement Grant Program in partnership with the California Air Resources Board to increase the turnover of high polluting equipment to reduce harmful diesel exhaust emissions," said Richard Stedman, Air Pollution Control Officer. "Each year we get an overwhelming response to the call for applications."

Grants cannot be used to satisfy existing air quality mandates or legal requirements; however, they can be applied to equipment that complies several years in advance of state regulations. Eligible equipment categories include the following:

- Off-Road Equipment Replacements
- Marine Engine Replacements
- School Bus Electrification
- Agricultural Irrigation Pump Electrification & Alternative Energy Projects
- Medium-Duty Fleet Electrification including Charging Infrastructure
-

***The deadline for submitting an application is
April 5th, 2020.***

Public Works & Utilities Director Palmisano and Ms. Simmons answered questions from Mayor Pro Tempore Coffman-Gomez regarding use of SB1 funding, coordination of pipe replacement with street repairs, recommended pipeline projects, potential for seeking funding from FEMA to purchase emergency generators, and potential for relocation of the Fowle Booster Pump Station.

In answering Member Gonzalez, Public Works & Utilities Director Palmisano stated the City would explore reduced utility rates for disadvantaged communities.

Mayor Garcia asked that Public Works & Utilities Director Palmisano explore options for informing the community about needs for water infrastructure.

3) Public Input

Steve Trujillo asked Council to investigate where Chromium 6 was coming from and prevent it from getting into the City's water source. He asked the City to plan for future water needs.

12. PUBLIC HEARINGS, ORDINANCES, & APPEALS

12.A. CONSIDERATION OF URGENCY MORATORIUM RESTRICTING DRIVE-THROUGHS FOR NEW PROJECTS (REQUIRES 4/5 VOTE) IN THE NEIGHBORHOOD COMMERCIAL, NEIGHBORHOOD SHOPPING CENTER, & THOROUGHFARE COMMERCIAL ZONING DISTRICTS

1) Staff Report

The report was given by City Attorney Smith.

2) City Council Clarifying & Technical Questions

In answering Member Hurst, City Attorney Smith stated projects in the approval process would not be affected by the proposed moratorium.

City Attorney Smith answered questions from Mayor Pro Tempore Coffman-Gomez regarding criteria used to justify why the proposed moratorium was an immediate threat to health and welfare.

In answering Mayor Garcia, City Attorney Smith explained the process for adopting a permanent ordinance banning drive-throughs.

City Attorney Smith and City Manager Huffaker answered questions from Mayor Pro Tempore Coffman-Gomez regarding staff recommendation and its intent. City Manager Huffaker added that staff would be reviewing the potential for a permanent ban on drive-throughs in certain areas of the City. Member Coffman-Gomez asked that the City conduct an open and transparent process with community input in regards to ban of drive-throughs.

In answering Member Hurst, City Manager Huffaker spoke about the amount of drive-throughs in Watsonville and stated there were no complaints about them. He added staff would assess work load and estimate when completion of a potential ban of drive-throughs could be brought for consideration by Council.

3) Public Hearing

Mayor Garcia opened the public hearing.

Steve Trujillo stated drive-throughs were producing high amounts of Carbon Monoxide and hurting the environment. He asked Council to pursue a ban of drive-throughs citywide.

Gina Cole, Bike Santa Cruz County, stressed the importance of protecting the environment and reducing emissions. She asked Council to approve the moratorium.

Seeing no one else approach the podium, Mayor Garcia closed the public hearing.

4) MOTION (FAILED): It was moved by Member Estrada, seconded by Member Hernandez to adopt the following ordinance:

**ORDINANCE NO. 1400-20 (CM) - FAILED:
ADOPTION OF UNCODIFIED EMERGENCY INTERIM ORDINANCE
ESTABLISHING A 45-DAY MORATORIUM ON THE APPROVAL OF NEW,
RECONSTRUCTED, OR EXPANDED DLU 581 & GLU 58 DRIVE-THROUGHS IN
THE CN, CNS & CT (NEIGHBORHOOD COMMERCIAL, NEIGHBORHOOD
SHOPPING CENTER, & THOROUGHFARE COMMERCIAL) ZONING DISTRICTS**

5) City Council Deliberation on Motion(s)

Member Parker stated drive-throughs were too valuable to disabled persons and families unable to walk certain distances to ban. She added Council could consider approval of each drive-through brought for consideration based on its own merits.

Member Coffman-Gomez stated her concerns in approving a moratorium based on the information provided and criteria used to justify the moratorium.

Member Gonzalez spoke about the benefits drive-throughs were for the community and stated there was no justification for a moratorium.

Member Hurst stated there was no emergency and a moratorium was not needed. He spoke about the benefit drive-throughs were to disabled and elderly residents as well as those families who it was too difficult to walk to a certain location.

Member Estrada spoke about the importance of protecting the environment by reducing emissions generated from cars. He asked the public to be more involved in the matter.

Mayor Pro Tempore Coffman-Gomez stated drive-throughs contributed to a large part of sales for some restaurants. She spoke about ways emissions could be reduced without banning drive-throughs.

Mayor Garcia stated the environment was in a state of crisis and everyone needed to pursue policies to protect the environment. She added that the moratorium would allow staff to explore options for addressing drive-throughs and environmentally friendly policies.

MOTION: The above motion failed by the following vote:

AYES:	MEMBERS:	Estrada, Garcia
NOES:	MEMBERS:	Coffman-Gomez, Gonzalez, Hernandez, Hurst, Parker

City Attorney Smith and City Manager Huffaker answered questions from Mayor Pro Tempore Coffman-Gomez regarding staff recommendation and its intent. City Manager Huffaker added that staff would be reviewing the potential for a permanent ban on drive-throughs in certain areas of the City. Member Coffman-Gomez asked that the City conduct an open and transparent process with community input in regards to ban of drive-throughs.

In answering Member Hurst, City Manager Huffaker spoke about the amount of drive-throughs in Watsonville and stated there were no complaints about them. He added staff would assess work load and estimate when completion of a potential ban of drive-throughs could be brought for consideration by Council.

3) Public Hearing

Mayor Garcia opened the public hearing.

Steve Trujillo stated drive-throughs were producing high amounts of Carbon Monoxide and hurting the environment. He asked Council to pursue a ban of drive-throughs citywide.

Gina Cole, Bike Santa Cruz County, stressed the importance of protecting the environment and reducing emissions. She asked Council to approve the moratorium.

Seeing no one else approach the podium, Mayor Garcia closed the public hearing.

4) MOTION (FAILED): It was moved by Member Estrada, seconded by Member Hernandez to adopt the following ordinance:

**ORDINANCE NO. 1400-20 (CM) - FAILED:
ADOPTION OF UNCODIFIED EMERGENCY INTERIM ORDINANCE
ESTABLISHING A 45-DAY MORATORIUM ON THE APPROVAL OF NEW,
RECONSTRUCTED, OR EXPANDED DLU 581 & GLU 58 DRIVE-THROUGHS IN
THE CN, CNS & CT (NEIGHBORHOOD COMMERCIAL, NEIGHBORHOOD
SHOPPING CENTER, & THOROUGHFARE COMMERCIAL) ZONING DISTRICTS**

5) City Council Deliberation on Motion(s)

Member Parker stated drive-throughs were too valuable to disabled persons and families unable to walk certain distances to ban. She added Council could consider approval of each drive-through brought for consideration based on its own merits.

Member Coffman-Gomez stated her concerns in approving a moratorium based on the information provided and criteria used to justify the moratorium.

Member Gonzalez spoke about the benefits drive-throughs were for the community and stated there was no justification for a moratorium.

Member Hurst stated there was no emergency and a moratorium was not needed. He spoke about the benefit drive-throughs were to disabled and elderly residents as well as those families who it was too difficult to walk to a certain location.

Member Estrada spoke about the importance of protecting the environment by reducing emissions generated from cars. He asked the public to be more involved in the matter.

Mayor Pro Tempore Coffman-Gomez stated drive-throughs contributed to a large part of sales for some restaurants. She spoke about ways emissions could be reduced without banning drive-throughs.

Mayor Garcia stated the environment was in a state of crisis and everyone needed to pursue policies to protect the environment. She added that the moratorium would allow staff to explore options for addressing drive-throughs and environmentally friendly policies.

MOTION: The above motion failed by the following vote:

AYES:	MEMBERS:	Estrada, Garcia
NOES:	MEMBERS:	Coffman-Gomez, Gonzalez, Hernandez, Hurst, Parker
ABSENT:	MEMBERS:	None

13. EMERGENCY ITEMS ADDED TO AGENDA (None)

14. REQUESTS & SCHEDULING FUTURE AGENDA ITEMS

Member Estrada requested an ordinance to extend protections to Section 8 housing program participants from unfair evictions and unjust rent increases.

Mayor Garcia asked for a resolution asking the bankruptcy court to transform PG&E into a customer owned public utility.

Mayor Pro Tempore Coffman-Gomez asked for a report regarding efforts to address street repairs.

Member Hernandez asked for an update on Pinto Lake.

15. ADJOURNMENT

The meeting adjourned at 9:42 p.m.

DATE: February 5, 2020

TO: Matthew D. Huffaker, City Manager

FROM: Steve Palmisano, Director Public Works & Utilities

SUBJECT: Amendment No. 1 to Traffic Signal Maintenance Contract with
Bear Electrical Solutions

AGENDA ITEM: February 11, 2020 **City Council**

RECOMMENDATION:

Staff recommends that the City Council approve Amendment No. 1 to the Traffic Signal Maintenance contract with Bear Electrical Solutions, Inc., a corporation (Contract #1293) to extend the term for two years and increase the amount by not to exceed \$120,000.00.

DISCUSSION:

On October 30, 2018 the City entered into an agreement with Bear Electrical Solutions, Inc. of San Jose, California to maintain the City's traffic signal systems. The initial term of the agreement was one (1) year with an option to extend for two (2) more years. The cost of the initial term was for an amount not to exceed \$60,000.00. So this contract merely extends this service at the same rate for two more years.

Bear Electrical Solutions, Inc. has performed well on the contract required maintenance over the last year. Extending the agreement for an additional two (2) year term will allow the City to continue to effectively maintain its traffic signal systems.

Staff recommends that the City Council approve Amendment No. 1, extending the agreement with Bear Electrical Solutions, Inc. for an additional term of two (2) years and an increase amount of not to exceed \$120,000.00 (\$60,000 for each year?)

STRATEGIC PLAN:

This contract is consistent with Goal 3, Infrastructure and Environment, as this contract is to maintain our built infrastructure.

FINANCIAL IMPACT:

The cost of extending the agreement for an additional two (2) year term not to exceed \$120,000.00 is included in the adopted budget for FY 2019-2020, under the following project number:

0305 923 7837 14018 Signals and Lighting Repair and Maintenance

The appropriate amounts will be eventually included in budgets for FY 2020-2021 and FY 2021-2022.

ALTERNATIVES:

The City Council may choose not to authorize extending the agreement or increasing the amount and direct staff to request new bids.

RESOLUTION NO. _____ (CM)

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF WATSONVILLE APPROVING FIRST AMENDMENT TO CONTRACT FOR CONSULTANT SERVICES BETWEEN THE CITY OF WATSONVILLE AND BEAR ELECTRICAL SOLUTIONS, INC., A CORPORATION, FOR ROUTINE AND EMERGENCY TRAFFIC SIGNAL MAINTENANCE SERVICES, IN AN AMOUNT NOT TO EXCEED \$120,000 FOR A TWO YEAR TERM; AND AUTHORIZING AND DIRECTING THE CITY MANAGER TO EXECUTE SAME

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF WATSONVILLE, CALIFORNIA, AS FOLLOWS:

1. That the First Amendment to Contract for Consultant Services between the City of Watsonville and Bear Electrical Solutions, Inc., a corporation, in an amount not to exceed \$120,000 for a two year term, to provide routine and emergency traffic signal maintenance services, a copy of which Amendment is attached hereto and incorporated herein by this reference, is fair and equitable and is hereby ratified and approved.
2. That the City Manager be and is hereby authorized and directed to execute said Amendment for and on behalf of the City of Watsonville.

**FIRST AMENDMENT TO CONSULTANT SERVICES CONTRACT
BETWEEN THE CITY OF WATSONVILLE
AND BEAR ELECTRICAL SOLUTIONS**

THIS FIRST AMENDMENT TO CONTRACT for consultant services is entered into by and between the **City of Watsonville** ("City") and **Bear Electrical Solutions** this 23rd day of December, 2019. The City and Consultant agree as follows:

RECITALS

WHEREAS, the City and Consultant have previously executed a Consultant Services Contract to provide Traffic Signal Maintenance services, dated October 30, 2018;

WHEREAS, the City has added additional tasks to the work program of the Consultant causing additional cost and time to the project completion; and

WHEREAS, the amendment of the Contract for Consultant Services is in the best interest of the City of Watsonville.

NOW, THEREFORE, the City and the Consultant agree that the Contract shall be amended as follows:

Section 1 is hereby amended to add the following:

"Section 1. Scope of Services. In addition to the performance of those services specified in detail in Exhibit "A" of the Contract, Consultant shall perform the additional services specified in detail in Exhibit "1," entitled FIRST AMENDMENT TO SCOPE OF SERVICES, which is attached hereto and incorporated herein."

Bear will provide installation of the downtown banner for a fee of \$150 to install and \$150 to remove. If the banner becomes damaged and they need to remobilize they will charge a flat fee of \$150 to repair. These rates only apply to the downtown banner we put up across Main Street.

Section 2 is hereby amended to add the following:

"Section 2. Term of Contract and Exhibit "B", Schedule of Performance. Contract end date to extend to November 1, 2021

Section 4 is hereby amended to read:

"Section 4 and Exhibit "C" both entitled "Compensation" of the Contract, are hereby amended to provide an additional amount of compensation of one hundred twenty thousand dollars, (\$120,000) for professional services.

All other terms and conditions of the Contract dated October 30, 2018, as amended, shall remain in full force and effect.

IN WITNESS WHEREOF, the parties hereto have executed this First Amendment to Consultant Services Contract the day and year first hereinabove written.

RE: Request to Amend and Extend the Agreement for Traffic Signal Maintenance Services for Bear Electrical Solutions, Inc. – FY 19-21

Dear Mr. Gonzalez:

Reference is made to our current contract to perform consultant services for the *City of Watsonville – Traffic Signal Maintenance (dated October 30, 2018)*. Bear Electrical Solutions, Inc. is grateful to work with the City and its community and wishes to continue that relationship.

We respectfully request to amend and extend the aforementioned contract for another two (2) year term as afforded in *Section 2 -Term of Contract*.

Moreover, we kindly request the following amendment to *Exhibit G – Equipment and Labor for Extra Work*:

Amendment Request No. 1 – Unit cost adjustment of +3.0% for our Labor and Equipment Rates in Exhibit D. Attached is a copy of the most recent news release from the Bureau of Labor Statistics for the San Francisco Area dated November 13, 2019 that reports a 3.0% increase to the consumer price index (CPI) compared to last year. This CPI increase has been incorporated to the attached proposed exhibit.

Again, we are extremely grateful for the opportunity to work with the city of Watsonville and City staff and look forward to another contract term.

Please feel free to contact me directly via mobile phone at 408-717-2448 or via email at Robert@Bear-Electrical.com

Sincerely,

Consumer Price Index, San Francisco Area — October 2019

Area prices were up 1.0 percent over the past two months, up 3.0 percent from a year ago

Prices in the San Francisco area, as measured by the Consumer Price Index for All Urban Consumers (CPI-U), increased 1.0 percent for the two months ending in October 2019, the U.S. Bureau of Labor Statistics reported today. (See [table A](#).) Assistant Commissioner for Regional Operations Richard Holden noted that the October increase was influenced by higher prices for gasoline and shelter. (Data in this report are not seasonally adjusted. Accordingly, month-to-month changes may reflect seasonal influences.)

Over the last 12 months, the CPI-U rose 3.0 percent. (See [chart 1](#) and [table A](#).) The index for all items less food and energy increased 2.6 percent over the year. Food prices rose 4.6 percent. Energy prices rose 5.5 percent, largely the result of an increase in the price of gasoline. (See [table 1](#).)

Chart 1. Over-the-year percent change in CPI-U, San Francisco-Oakland-Hayward, CA, October 2016–October 2019

Source: U.S. Bureau of Labor Statistics.

Food

Food prices advanced 1.0 percent for the two months ending in October. (See [table 1.](#)) Prices for food at home rose 1.4 percent, and prices for food away from home increased 0.6 percent for the same period.

Over the year, food prices rose 4.6 percent. Prices for food away from home advanced 6.2 percent since a year ago, and prices for food at home increased 2.8 percent.

Energy

The energy index rose 8.7 percent for the two months ending in October. The increase was mainly due to higher prices for gasoline (14.0 percent). Prices for electricity advanced 0.5 percent, and prices for natural gas service moved up 0.2 percent for the same period.

Energy prices rose 5.5 percent over the year, largely due to higher prices for gasoline (5.5 percent). Prices paid for natural gas service jumped 11.2 percent, and prices for electricity increased 4.1 percent during the past year.

All items less food and energy

The index for all items less food and energy advanced 0.6 percent in the latest two-month period. Higher prices for household furnishings and operations (2.4 percent) and shelter (0.7 percent) were partially offset by lower prices for apparel (-4.8 percent).

Over the year, the index for all items less food and energy increased 2.6 percent. Components contributing to the increase included medical care (8.2 percent) and shelter (2.8 percent). Partly offsetting the increases were price declines in apparel (-4.3 percent) and education and communication (-1.1 percent).

The December 2019 Consumer Price Index for the San Francisco area is scheduled to be released on January 14, 2020.

Consumer Price Index Geographic Revision for 2018

In January 2018, BLS introduced a new geographic area sample for the Consumer Price Index (CPI). As part of the new sample, the index for this area was renamed. Additional information on the geographic revision is available at: www.bls.gov/cpi/additional-resources/geographic-revision-2018.htm.

Technical Note

The Consumer Price Index (CPI) is a measure of the average change in prices over time in a fixed market basket of goods and services. The Bureau of Labor Statistics publishes CPIs for two population groups: (1) a CPI for All Urban Consumers (CPI-U) which covers approximately 94 percent of the total population and (2) a CPI for Urban Wage Earners and Clerical Workers (CPI-W) which covers 28 percent of the total population. The CPI-U includes, in addition to wage earners and clerical workers, groups such as professional, managerial, and technical workers, the self-employed, short-term workers, the unemployed, and retirees and others not in the labor force.

The CPI is based on prices of food, clothing, shelter, and fuels, transportation fares, charges for doctors' and dentists' services, drugs, and the other goods and services that people buy for day-to-day living. Each month, prices are collected in 75 urban areas across the country from about 5,000 housing units and approximately 22,000 retail establishments--department stores, supermarkets, hospitals, filling stations, and other types of stores and service establishments. All taxes directly associated with the purchase and use of items are included in the index.

The index measures price changes from a designated reference date (1982-84) that equals 100.0. An increase of 16.5 percent, for example, is shown as 116.5. This change can also be expressed in dollars as follows: the price of a base period "market basket" of goods and services in the CPI has risen from \$10 in 1982-84 to \$11.65. For further details see the CPI home page on the Internet at www.bls.gov/cpi and the BLS Handbook of Methods, Chapter 17, The Consumer Price Index, available on the Internet at www.bls.gov/opub/hom/homch17_a.htm.

In calculating the index, price changes for the various items in each location are averaged together with weights that represent their importance in the spending of the appropriate population group. Local data are then combined to obtain a U.S. city average. Because the sample size of a local area is smaller, the local area index is subject to substantially more sampling and other measurement error than the national index. In addition, local indexes are not adjusted for seasonal influences. As a result, local area indexes show greater volatility than the national index, although their long-term trends are quite similar. **NOTE: Area indexes do not measure differences in the level of prices between cities; they only measure the average change in prices for each area since the base period.**

The San Francisco-Oakland-Hayward, CA. metropolitan area covered in this release is comprised of Alameda, Contra Costa, Marin, San Francisco, San Mateo Counties in the State of California.

DATE: January 22, 2020

TO: Matthew D. Huffaker, City Manager

FROM: Steve Palmisano, Director of Public Works & Utilities
Robert Berry, Senior Utilities Engineer

SUBJECT: Amendment No. 1 to the Consultant Contract with Epico Systems, Inc., a corporation, in an amount not to exceed \$180,000

AGENDA ITEM: February 11, 2020 City Council

RECOMMENDATION:

Staff recommends that the City Council approve Amendment No. 1 to the March 7, 2018, Consultant Contract with Epico Systems, Inc. of Watsonville to provide fiber optic network maintenance services in the amount of \$180,000 and term extension until December 31, 2022.

DISCUSSION:

On March 7, 2018, a contract was executed between the City of Watsonville and Epico Systems Inc. to provide fiber optic network maintenance to the City's expanding fiber installation. In the fall of 2017 the City issued a Request for Proposals for fiber network maintenance to telecommunication firms in the Bay Area, and Epico was chosen based on experience, response time, and pricing. The initial contract covered three years at \$30,000 per year for a total amount of \$90,000 and will expire on or about March 7, 2020.

It quickly became apparent that many departments needed Epico's services in providing additional fiber optic connections to City owned buildings from the main fiber optic cable run throughout Watsonville. The Epico contract was adjusted to use the \$90,000 over two years, however these funds are almost all expended.

To date, the following departments have used Epico's services: Information Services, Public Works and Utilities, and Parks and Community Services. The Airport Enterprise has likewise used Epico's services. All funds except the Airport come from the General Fund.

With many small fiber optic additions and modifications to both the conduit infrastructure and cable installation pending to meet the City's demands, an extension of time and amount is needed and requested.

Staff recommends that City Council approve Amendment No. 1 to Epico Systems Inc. current contract to include a contract extension through December 31, 2022. This would extend the contract by approximately three years and nine months (ending during FY 2022-2023) and increase the not to exceed amount by \$180,000 for a total contract of \$270,000.

STRATEGIC PLAN:

This project is consistent with the Strategic Plan goal of Infrastructure and Environment by improving the City's data infrastructure.

FINANCIAL IMPACT:

This contract is for on-call services. No funds need to be allocated nor appropriated at this time; each department and the Airport Enterprise pay for work performed upon completion of the specific scope of work.

City Council

RECOMMENDATION:

It is recommended that the Council adopt a Resolution:

1. Accepting a \$4,000 Donation from Pajaro Valley Prevention and Student Assistance;
2. Accepting a \$1,040 Donation from the Friends of Watsonville Parks and Community Services, Inc.; and
3. Appropriating these Donations and Park Development Funds in the Amount of \$90,960 for the Muzzio Park Playground Reconstruction Project

DISCUSSION:

In the late night hours of Monday, July 8, 2019, the Watsonville Police Department responded to a fire at Muzzio Park. The Fire Department arrived to extinguish the fire that was caused by vandals who placed wooden pallets under the Park's playground structure and set them on fire. The fire was quickly brought under control and no other Park amenities were affected, however, the playground structure was completely destroyed.

The goal of the Muzzio Playground Replacement Project is to increase community health and wellness by (1) replacing a well-used play structure that was destroyed in a fire through an act of vandalism and (2) increase use and accessibility by expanding the size and footprint of the play area.

According to California State Park's Community FactFinder Tool (the website used by their Office of Grants and Local Services to determine eligibility for Proposition 68 State Grant eligibility), the following statistics describe the population living within a half mile of the park:

Of the 6,607 residents living in walking distance from the park, 36% (2,375) are youth and 30% (1,982) live in poverty with a median household income of \$39,207.

Given the large population of disadvantaged youth and that there are only 1.55 park acres per 1,000 residents in the surrounding neighborhood, Muzzio Park plays a vital role in the health and wellness of the community. As neighborhood residents live in high-density apartment and mobile home units, with little to no green space, this park serves as the community's back yard.

With a playground equipment discount provided by GameTime through the California Parks and Recreation Society (CPRS), this project expands the former playground footprint from 30'x30' to 30'x50'. Funding for this project is also made possible by a donation from Pajaro Valley Prevention and Student Assistance Program (PVPSA), a Go Fund Me campaign hosted by the Friends of Watsonville Parks and Community Services, Inc. and City insurance claim reimbursements. Staff recommends that the balance of needed funds for this project be appropriated from the Park Development Fund. The following is a summary of project funding:

Funding Source	Amount
PVPSA Donation	\$4,000
Friends of Watsonville PCS Donation	\$1,040
Park Development Fund Appropriation	\$90,960 (estimated \$46,000 to be reimbursed by insurance)
TOTAL PROJECT COST:	\$96,000

STRATEGIC PLAN:

This project supports the Council's priorities of Infrastructure & Environment and Community Engagement & Well-Being.

FINANCIAL IMPACT:

Funding for this project from donations, insurance reimbursement and Park Development Funds, in the amount of \$96,000 will be appropriated to 0150-901-7855-XXXXX. It is anticipated that the City's insurance provider will reimburse the City an estimated \$46,000 for damages incurred due to the incident. Final reimbursement will be determined after the completion of the project. This reimbursement will reduce the funds needs from the Park Development Fund.

ALTERNATIVES:

The Council could elect to not accept the described donations and not appropriate funds for this project, and not replace the burned play structure.

Council may also consider a different and smaller play structure at a lesser cost.

SUBJECT: Resolution Approving the City's Enrollment into the AARP Age Friendly Communities and Supporting a County-Wide Age Friendly Communities Initiative

AGENDA ITEM: February 11, 2020 **City Council**

RECOMMENDATION:

Staff recommends that Council adopt a resolution:"

1. Approving the City's enrollment into the AARP Age Friendly Communities, and
2. Supporting a county-wide Age Friendly Communities initiative

DISCUSSION:

Background

On September 24, 2019, the City Council appropriated funds to support older adult services and the operation of the Watsonville Senior Center. This action was congruent with the City's long-standing commitment to older adult services and was intended to ensure that:

1. The Watsonville Senior Center is operating in an effective and fiscally sustainable manner to serve as a hub for services and programs for older adults in the community, and
2. Programs and services for older adults meet the needs of this growing population.

Age Friendly Communities

It is widely accepted that health and well-being are determined not only by our genes and personal characteristics, but also by the physical and social environments in which we live our lives. According to the World Health Organization, "Environments play an important role in determining our physical and mental capacity across a person's life course and into older age and also how well we adjust to loss of function and other forms of adversity that we may experience at different stages of life, and in particular in later years. Both older people and the environments in which they live are diverse, dynamic and changing. In interaction with each other they hold incredible potential for enabling or constraining Healthy Ageing."

Accordingly, the World Health Organization has identified eight domains of Livability that affect the well-being of older adults. These include:

1. Outdoor Spaces and Buildings
2. Transportation
3. Housing
4. Social Participation
5. Respect and Social Inclusion
6. Civic Participation and Employment
7. Communication and Information
8. Community and Health Services

The American Association of Retired Persons (AARP) has adopted this model and has formed a network throughout the United States that support communities in working towards improving livability standards in these domains. Joining the AARP Age Friendly Network signifies a community commitment to implementing changes that make communities more livable for all ages, especially older adults. The network also provides resources, including global research, planning models and best practices that help support this effort.

Santa Cruz County Initiative

The Seniors Council/Area Agency on Aging is currently leading a countywide effort to create age friendly communities. This initiative involves a commitment by each jurisdiction in Santa Cruz county to actively increase the livability index of the community by developing an action plan that supports the ability for adults to age in place. This involves creating opportunities to improve livability standards in the eight domain areas defined by the World Health Organization.

The five-step process includes:

1. A political commitment by the elected body
2. Organizing stakeholders
3. Conducting assessments to identify local needs
4. Establishing an advisory committee
5. Developing an action plan

The Seniors Council/Area Agency on Aging is proposing to lead each jurisdiction in the county through this process. The Seniors Council's experience and leadership will provide regional guidance to the development of an age-friendly community, benefitting people of all ages and promoting the ongoing work of local governments to make their cities and counties exemplary places to live and flourish. The effort will utilize the skills and experience of older adults in the community to enhance and promote healthy lifestyles and offset some of the physical and financial burdens of an aging population. By being proactive and using both proven and innovative strategies, the Area Agency on Aging of Santa Cruz & San Benito County will

coordinate the efforts of the cities within Santa Cruz County (and County of Santa Cruz) to develop:

- A set of priorities and specific achievable goals as applicable to AARP's "8 Domains of Livability"
- Tools to track progress towards improving local Domains of Livability scores
- Strategies for continuing encouragement/assisting regional jurisdictions to develop local Age-Friendly Strategic Plans
- Recommendations and strategies for assuring sustainability of Age-Friendly interventions and innovations

Age-Friendly Cities is typically a three to five-year process. Timing will depend on available funding and the engagement of interested local cities, although it is anticipated that the project will kick off by spring 2020.

Staff Support and Funding Request

The Seniors Council will provide staff to coordinate and lead the regional effort. Funding for the Project Coordinator is being sought from several grant sources, with each city and county asked to provide match funds to the main grant in order to assure their engagement in the effort, to reassure and encourage foundation funders to endorse the project and to fully fund the Project Coordinator and related expenses. The anticipated annual costs to the City of Watsonville is \$6,560.

STRATEGIC PLAN:

This initiative supports all six priorities of the Council's Strategic Plan.

FINANCIAL IMPACT:

The anticipated annual costs to the City of Watsonville for its portion of the Project Coordinator position is \$6,560. Expenses for the current Fiscal Year 2019-2020 will be charged to the adopted budget for Older Adult Services. An additional allocation for this expense will be included in future fiscal year budgets through the budget approval process.

ALTERNATIVES:

The Council could elect to not approve the City's enrollment into the AARP Age Friendly Communities and not support the county-wide Age Friendly Communities Initiative.

WHEREAS, as California's older population is growing, the economic security of older adults across the state is diminishing, with high housing and health care costs, rising inequality, and cuts to critical safety net programs leaving far too many older Californians without enough income to meet their basic needs; and

WHEREAS, the AARP Network of Age-Friendly Communities is an affiliate of the World Health Organization's (WHO) Age-Friendly Cities and Communities, an international effort launched in 2006 to help cities prepare for rapid population aging and the parallel trend of urbanization; and

WHEREAS, the AARP Network of Age-Friendly Communities (the "Network") helps participating communities become great places for all ages by adopting such features as safe, walkable streets, better housing, and transportation options; access to key services; and opportunities for residents to participate in community activities; and

WHEREAS, members of the AARP Network of Age-Friendly Communities become part of a global network of communities that are committed to giving their older residents the opportunity to live rewarding, productive and safe lives; and

WHEREAS, the benefits of joining the Network include, but are not limited to, access to key information about best practices among age-friendly communities, access to a global network of participating communities, and public recognition of the City's commitment to become more age-friendly; and

WHEREAS, the health and safety of residents of all ages is of highest concern to the citizens of Watsonville; and

WHEREAS, as the U.S. population ages and people stay healthy and active longer, communities must adapt; and

WHEREAS, well-designed, livable communities promote health and sustain economic growth, and they make for happier healthier residents of all ages; and

WHEREAS, the City of Watsonville joins the partnership being led by the Seniors Council/Area Agency on Aging as one of the local jurisdictions embracing the county-wide Age Friendly Communities project.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF WATSONVILLE, CALIFORNIA, AS FOLLOWS:

That in order to ensure the City of Watsonville is a well-designed, livable community that promotes health and sustained economic growth for residents of all ages, the City Council hereby approves the City's enrollment into the AARP Age Friendly Communities and hereby supports the planning process and request participation in the county-wide Age Friendly Communities initiative.

Eight Domains of Livability

1. Outdoor Spaces and Buildings
2. Transportation
3. Housing
4. Social Participation
5. Respect and Social Inclusion
6. Civic Participation and Employment
7. Communication and Information
8. Community and Health Services

The 8 Domains

Domain 1

Outdoor Spaces and Buildings

People need places to gather — indoors and out. Parks, sidewalks, safe streets, outdoor seating and accessible buildings (think elevators, stairs with railing, etc.) can be used and enjoyed by people of all ages.

Domain 2

Transportation

Driving shouldn't be the only way to get around. Public transit options can be as expansive as a train system or as targeted as a taxi service that provides non-drivers with rides to and from a doctor's office.

Domain 3

Housing

Most older adults want to age in place. Doing so is possible if homes are appropriately designed or modified — and if a community includes affordable housing options for varying life stages.

Domain 4

Social Participation

Regardless of one's age, loneliness negatively affects a person's health and sense of wellbeing. Isolation can be combatted by the availability of accessible, affordable and fun social activities.

Domain 5

Respect and Social Inclusion

Intergenerational activities are a great way for young and old to learn from one another, honor what each has to offer and, at the same time, feel good about themselves.

Domain 6

Civic Participation and Employment

An age-friendly community provides ways older people can, if they choose to, work for pay, volunteer their skills and be actively engaged in community life.

Domain 7

Communication and Information

Age-friendly communities recognize that not everyone has a smartphone or Internet access and that information needs to be disseminated through a variety of means.

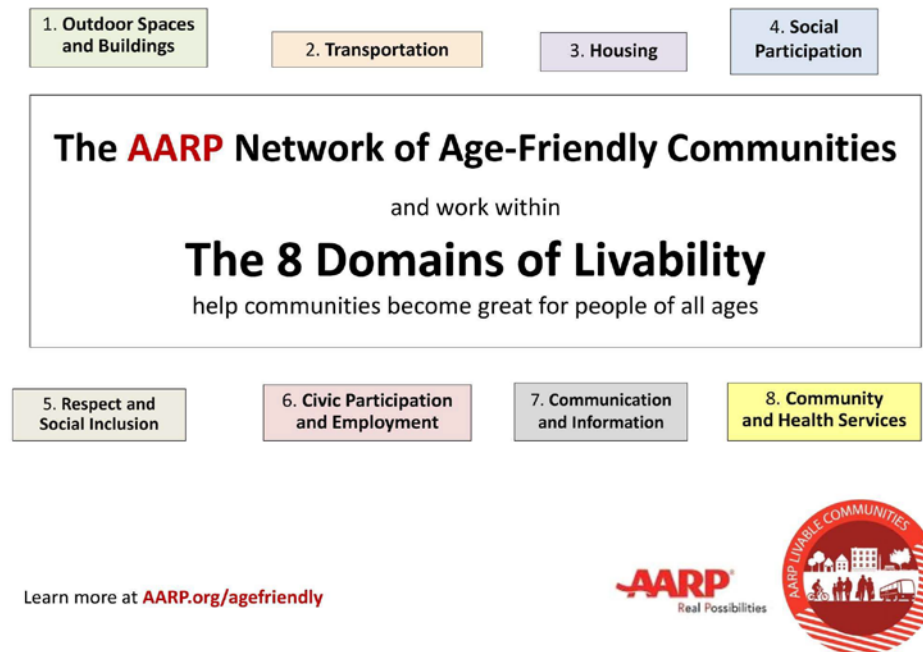

Domain 8

Community and Health Services

At some point, everyone gets hurt, becomes ill or simply needs a bit of help. While it's important that care be available nearby, it's essential that residents are able to access and afford the services required.

AARP's Age Friendly Network

- The American Association of Retired Persons (AARP) has adopted this model and has formed a network
- Supports communities in working towards improving livability standards in these domains
- Joining the Network signifies a community commitment to implementing changes that make communities more livable for all ages, especially older adults
- Network provides resources, including global research, planning models and best practices

County-Wide Initiative

The Area Agency on Aging Advisory Council will serve as the Age-Friendly Advisory Council for the project. In that role, the AAA Advisory Council will make recommendations to each City and the County for adoption.

The Area Agency on Aging Advisory Council consists of representatives from the City Councils of Watsonville (Councilmember Hurst), Capitola, Santa Cruz, Scotts Valley, San Juan Bautista, Hollister.

Two members represent the Santa Cruz County Board of Supervisors (Bruce McPherson and Greg Caput); plus two members from the San Benito County Board of Supervisors.

County-Wide Initiative

- The Seniors Council/Area Agency on Aging is leading a countywide effort to create age friendly communities.
- Initiative involves a commitment by each jurisdiction in Santa Cruz county to actively increase the livability index of the community by developing an action plan
- The five-step process includes:
 - A political commitment by the elected body
 - Organizing stakeholders
 - Conducting assessments to identify local needs
 - Establishing a Project Workgroup

- Tools to track progress towards improving local Domains of Livability scores
- Strategies for continuing encouragement/assisting regional jurisdictions to develop local Age-Friendly Strategic Plans
- Recommendations and strategies for assuring sustainability of Age-Friendly interventions and innovations

*Each City Council
(or the Board of Supervisors)
will have final approval of
their own action steps in the
Age-Friendly Community
Initiative.*

Timeline

- AAA/Seniors Council convenes & staffs Countywide AF Workgroup
- Age Friendly (AF) Workgroup develops plans working through each of 8 domains
- Domains presented as completed, promoting continuous progress and ongoing community engagement
- Process is typically 3 to 5 years, which includes plan development, implementation, and progress analysis
- AAA Advisory Council will review drafts and City representatives will forward their recommendations to each of their respective Cities (or the County)
- Each Jurisdiction has Final Approval of each Domain – AND the overall action plan

Project Funding

- The Seniors Council will provide staff to coordinate and lead effort
- Funding for the Project Coordinator is being sought from several grant sources, with each city and county asked to provide match funds
- Anticipated annual costs to the City of Watsonville is \$6,560.

Each jurisdiction will contribute a penny per week per adult aged 60+ in their community.

SUBJECT: Updated Taxi Ordinance

AGENDA ITEM: February 11, 2020 **City Council**

RECOMMENDATION:

Staff recommends that the City Council approve the updated Taxi Ordinance amending Chapter 22 (Taxicabs) of Title 5 (Public Welfare, Morals and Conduct) of the Watsonville Municipal Code.

DISCUSSION:

AB 1069 was signed by the Governor on October 13, 2017. AB 1069 requires changes to how counties and cities regulate taxi services. Recently, the Council adjusted the rates for local taxi companies. Around this time, it became apparent that the Watsonville ordinance no longer complied with State law. The last change to Chapter 5-22 was 19 years ago when Ordinance 1117-01 (CM) was adopted in 2001. The proposed ordinance will replace the current Chapter 5-22 and update it to comply with AB1069

The California State Association of Counties (CSAC), along with representatives of the taxi industry, have provided cities and counties with a model ordinance that conforms to the changes required by AB 1069. The proposed Watsonville ordinance borrows from the CSAC model ordinance.

The main purpose of AB 1069 is to allow taxi companies more freedom to compete with unregulated Transportation Network Companies (TNC) like Uber and Lyft, while strengthening safety oversight by cities and counties over taxi companies and drivers. Taxis and limousines are really the only local transportation options still regulated by cities and counties.

The first of the main changes from the current ordinance is the inclusion of the defined term, "substantially located." This term addresses the changed market conditions with the more transient presence of TNCs which may operate within the City but be based in other cities or even other counties. This ordinance applies only to taxi companies substantially located (as defined) in Watsonville.

Next, AB 1069 requires taxi companies to conduct driver alcohol and controlled substance checks. The City's present taxi ordinance adopted in 2001 does not require driver alcohol and controlled substance checks. This is a required law change and is aimed at making the community safer by putting it on the taxi companies to ensure their drivers comply. Having an alcohol and controlled substance check program is now required before a taxicab company can obtain a permit from the City.

There is also a vehicle safety inspection requirement that will ensure that taxi companies maintain their fleet of cars in a safe manner. Reports of inspections meeting the state requirements will be checked by the Police Department prior to permit renewals.

Lastly, a few antiquated sections of the current ordinance have been deleted for streamlining purposes. Examples include the requirement that taxi drivers wear caps marking them as taxi drivers and the issuance of vehicle safety stickers by the Chief of Police (this being replaced with the inspection report requirement).

STRATEGIC PLAN:

City Council's adoption of this resolution is consistent with the Council's goal of Economic Development by supporting and growing existing businesses.

FINANCIAL IMPACT:

There is no financial impact to the City of Watsonville. The fees related to this ordinance will remain the same, but are included in this report because the previous ordinance was rescinded, and the fees need to be re-adopted.

ALTERNATIVES:

The City Council may choose not to update the Taxi Ordinance. However, the City would then not comply with State law.

LEGISLATIVE COUNSEL'S DIGEST

AB 1069, Low. Local government: taxicab transportation services.

Existing law requires every city or county to adopt an ordinance or resolution in regard to taxicab transportation service and requires each city or county to provide for a policy for entry into the business of providing taxicab transportation service, the establishment or registration of rates for the provision of taxicab transportation service, and a mandatory controlled substance and alcohol testing certification program for drivers, as specified.

Existing law, referred to as the pull-notice system, requires the prospective employer of a driver who drives a specified vehicle to obtain a report showing the driver's current public record as recorded by the Department of Motor Vehicles, as specified. A violation of this provision of the Vehicle Code is a crime.

This bill, commencing January 1, 2019, would limit the applicability of that ordinance or resolution adoption requirement and related provisions to a city or county, including a charter city or charter county, in which a taxicab company is substantially located, and the City and County of San Francisco, regardless of whether a taxicab company is substantially located in the city and county. The bill, with respect to these cities or counties, except for the City and County of San Francisco, would additionally require provisions for the establishment or registration of rates for the provision of taxicab transportation service to meet specified requirements, would require permitted taxicab companies and drivers to comply with various additional specified requirements, including participation in the Department of Motor Vehicles' pull-notice system, would authorize the issuance of inspection stickers or other inspection compliance devices to compliant taxicab companies and the issuance of photo permits to compliant taxi drivers, would prohibit the placement of licensure, permitting, and certification requirements on taxicab companies or drivers that are not substantially located in their jurisdictions, would prohibit taxicab companies and taxicab drivers from operating within a county without a permit from the county or at least one city within the county and authorize a permitted taxicab company to provide prearranged trips anywhere within the county, and would subject unpermitted taxicab operation to a minimum fine of \$5,000, as specified. By expanding the scope of an existing crime, this bill would impose a state-mandated local program. The bill would provide an airport operator with separate and ultimate authority to regulate taxicab access to the airport and set access fees for taxicabs at the airport.

The bill would define "substantially located" for these purposes and deem a city or county in which a taxicab company or taxicab driver operates as a city or county in which a taxicab company or taxicab driver is

substantially located if the city or county enacts a resolution of intention to enter into a joint exercise of powers agreement or join a joint powers authority, or to enter into an agreement with a transit agency, for the purpose of regulating or administering taxicab companies and taxicab drivers. The bill, commencing January 1, 2018, would require taxicab companies and taxicab drivers to collect trip data to determine in what jurisdictions each company and driver are substantially located, and beginning January 1, 2019, would require the trip data collected in the previous 12 months to be provided upon date of renewal to the jurisdictions in which the company and driver are substantially located.

The bill, commencing January 1, 2019, would authorize a city or county, regardless of whether a taxicab company or taxicab driver is substantially located within its jurisdiction, to adopt operating requirements for taxicab companies and taxicab drivers that are not related to permitting or business licensing and to impose civil liability for violation of these ordinances, as specified.

The bill would include findings that the changes proposed by this bill address a matter of statewide concern and is not a municipal affair, and therefore shall apply equally to all cities, including charter cities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for specified reasons.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. It is the intent of the Legislature in enacting this act:

(a) To modernize the regulation of taxicab transportation services in order for taxicabs to better compete with all for-hire modes of transportation.

(b) To move taxicab permitting from the patchwork of various local requirements to require a permit in the jurisdiction in which taxicab transportation services have the most substantial connection.

(c) To authorize a joint powers authority, as an alternative to regulation by an individual city or county, or a transit agency or countywide transportation agency, upon the approval of its board, to prescribe duties and responsibilities for the regulation of taxicab transportation services.

SEC. 2. Section 53075.5 of the Government Code is amended to read:

53075.5. (a) Notwithstanding Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code, every city or county shall protect the public health, safety, and welfare by adopting an ordinance or resolution in regard to taxicab transportation service rendered in vehicles designed for carrying not more than eight persons, excluding the driver, which is operated within the jurisdiction of the city or county.

(b) Each city or county shall provide for, but is not limited to providing for, the following:

(1) A policy for entry into the business of providing taxicab transportation service. The policy shall include, but need not be limited to, all of the following provisions:

(A) Employment, or an offer of employment, as a taxicab driver in the jurisdiction, including compliance with all of the requirements of the program adopted pursuant to paragraph (3), shall be a condition of issuance of a driver's permit.

(B) The driver's permit shall become void upon termination of employment.

(C) The driver's permit shall state the name of the employer.

(D) The employer shall notify the city or county upon termination of employment.

(E) The driver shall return the permit to the city or county upon termination of employment.

(2) The establishment or registration of rates for the provision of taxicab transportation service.

(3) (A) A mandatory controlled substance and alcohol testing certification program. The program shall include, but need not be limited to, all of the following requirements:

(i) Drivers shall test negative for each of the controlled substances specified in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, before employment. Drivers shall test negative for these controlled substances and for alcohol as a condition of permit renewal or, if no periodic permit renewals are required, at such other times as the city or county shall designate. As used in this section, a negative test for alcohol means an alcohol screening test showing a breath alcohol concentration of less than 0.02 percent.

(ii) Procedures shall be substantially as in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, except that the driver shall show a valid California driver's license at the time and place of testing, and except as provided otherwise in this section. Requirements for rehabilitation and for return-to-duty and followup testing and other requirements, except as provided otherwise in this section, shall be substantially as in Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations.

(iii) A test in one jurisdiction shall be accepted as meeting the same requirement in any other jurisdiction. Any negative test result shall be accepted for one year as meeting a requirement for periodic permit renewal testing or any other periodic testing in that jurisdiction or any other jurisdiction, if the driver has not tested positive subsequent to a negative result. However, an earlier negative result shall not be accepted as meeting the pre-employment testing requirement for any subsequent employment, or any testing requirements under the program other than periodic testing.

(iv) In the case of a self-employed independent driver, the test results shall be reported directly to the city or county, which shall notify the taxicab leasing company of record, if any, of positive results. In all other cases, the results shall be reported directly to the employing transportation operator, who may be required to notify the city or county of positive results.

(v) All test results are confidential and shall not be released without the consent of the driver, except as authorized or required by law.

(vi) Self-employed independent drivers shall be responsible for compliance with, and shall pay all costs of, this program with regard to themselves. Employing transportation operators shall be responsible for compliance with, and shall pay all costs of, this program with respect to their employees and potential employees, except that an operator may require employees who test positive to pay the costs of rehabilitation and of return-to-duty and followup testing.

(vii) Upon the request of a driver applying for a permit, the city or county shall give the driver a list of the consortia certified pursuant to Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations that the city or county knows offer tests in or near the jurisdiction.

(B) No evidence derived from a positive test result pursuant to the program shall be admissible in a criminal prosecution concerning unlawful possession, sale or distribution of controlled substances.

(c) Each city or county may levy service charges, fees, or assessments in an amount sufficient to pay for the costs of carrying out an ordinance or resolution adopted in regard to taxicab transportation services pursuant to this section.

(d) Nothing in this section prohibits a city or county from adopting additional requirements for a taxicab to operate in its jurisdiction.

(e) For purposes of this section, "employment" includes self-employment as an independent driver.

(f) This section shall remain in effect only until January 1, 2019, and as of that date is repealed.

SEC. 3. Section 53075.5 is added to the Government Code, to read:

53075.5. (a) Notwithstanding Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code, every city or county in which a taxicab company is substantially located, as defined in subparagraph (B) of paragraph (2) of subdivision (k), shall protect the public health, safety, and welfare by adopting an ordinance or resolution in regard to taxicab transportation service rendered in vehicles designed for carrying not more than eight persons, excluding the driver, which are operated within the jurisdiction of the city or county.

(b) Each city or county that adopts an ordinance pursuant to subdivision (a) shall provide for, but is not limited to providing for, the following:

(1) A policy for entry into the business of providing taxicab transportation service. The policy shall include, but need not be limited to, all of the following provisions:

(A) Employment, or an offer of employment, as a taxicab driver in the jurisdiction, including compliance with all of the requirements of the program adopted pursuant to paragraph (3), shall be a condition of issuance of a driver's permit.

(B) The driver's permit shall become void upon termination of employment.

(C) The driver's permit shall state the name of the employer.

(D) The employer shall notify the city or county upon termination of employment.

(E) The driver shall return the permit to the city or county upon termination of employment.

(2) The establishment or registration of rates for the provision of taxicab transportation service that meets the following requirements:

(A) The taxicab company may set fares or charge a flat rate. However, a city or county may set a maximum rate.

(B) The taxicab company may use any type of device or technology approved by the Division of Measurement Standards to calculate fares, including the use of Global Positioning System metering, provided that the device or technology complies with Section 12500.5 of the Business and Professions Code and with all regulations established pursuant to Section 12107 of the Business and Professions Code.

(C) The taxicab company shall disclose fares, fees, or rates to the customer. A permitted taxicab company may satisfy this requirement by disclosing fares, fees, or rates on its Internet Web site, mobile telephone application, or telephone orders upon request by the customer.

(D) The taxicab company shall notify the passenger of the applicable rate prior to the passenger accepting the ride for walkup rides and street hails. The rate may be provided on the exterior of the vehicle, within an application of a mobile telephone, device, or other Internet-connected device, or be clearly visible in either print or electronic form inside the taxicab.

(3) (A) A mandatory controlled substance and alcohol testing certification program. The program shall include, but need not be limited to, all of the following requirements:

(i) Drivers shall test negative for each of the controlled substances specified in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, before employment. Drivers shall test negative for these controlled substances and for alcohol as a condition of permit renewal or, if no periodic permit renewals are required, at such other times as the city or county shall designate. As used in this section, a negative test for alcohol means an alcohol screening test showing a breath alcohol concentration of less than 0.02 percent.

(ii) Procedures shall be substantially as in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, except that the driver shall show a valid California driver's license at the time and place of testing, and except as provided otherwise in this section. Requirements for rehabilitation and for return-to-duty and followup testing and other requirements, except as provided otherwise in this section, shall be substantially as in Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations.

(iii) A test in one jurisdiction shall be accepted as meeting the same requirement in any other jurisdiction. Any negative test result shall be accepted for one year as meeting a requirement for periodic permit renewal testing or any other periodic testing in that jurisdiction or any other jurisdiction, if the driver has not tested positive subsequent to a negative result. However, an earlier negative result shall not be accepted as meeting the preemployment testing requirement for any subsequent employment, or any testing requirements under the program other than periodic testing.

(iv) In the case of a self-employed independent driver, the test results shall be reported directly to the city or county, which shall notify the taxicab leasing company of record, if any, of positive results. In all other cases, the results shall be reported directly to the employing transportation operator, who may be required to notify the city or county of positive results.

(v) All test results are confidential and shall not be released without the consent of the driver, except as authorized or required by law.

(vi) Self-employed independent drivers shall be responsible for compliance with, and shall pay all costs of, this program with regard to themselves. Employing transportation operators shall be responsible for compliance with, and shall pay all costs of, this program with respect to their employees and potential employees, except that an

operator may require employees who test positive to pay the costs of rehabilitation and of return-to-duty and followup testing.

(vii) Upon the request of a driver applying for a permit, the city or county shall give the driver a list of the consortia certified pursuant to Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations that the city or county knows offer tests in or near the jurisdiction.

(B) No evidence derived from a positive test result pursuant to the program shall be admissible in a criminal prosecution concerning unlawful possession, sale or distribution of controlled substances.

(c) Each city or county may levy service charges, fees, or assessments in an amount sufficient to pay for the costs of carrying out an ordinance or resolution adopted in regard to taxicab transportation services pursuant to this section.

(d) (1) A city or county may issue to a taxicab company that complies with all provisions of this section and Section 53075.52, and with all applicable local ordinances or resolutions of that city or county, an inspection sticker or other inspection compliance device. A city or county shall issue to a taxi driver that complies with all provisions of this section and Section 53075.52, and with all applicable local ordinances or resolutions of that county, a photo permit, and that driver is required to display that photo permit in a place visible to a passenger.

(2) A city or county may accept a taxicab company or driver permit issued by another city or county as valid, and may issue to that taxicab company or driver an inspection sticker or photo permit that authorizes that taxicab company or driver to operate within the county.

(e) A city or county shall not require a taxicab company or driver to obtain a business license, service permit, car inspection certification, or driver permit, or to comply with any requirement under this section or Section 53075.52, unless the company or driver is substantially located within the jurisdiction of that city or county.

(f) A permitted taxicab company may provide prearranged trips anywhere within the county in which it has obtained a permit under subdivision (a).

(g) A permitted taxicab company shall not prejudice, disadvantage, or require different rates or provide different service to a person because of race, national origin, religion, color, ancestry, physical disability, medical condition, occupation, marital status or change in marital status, sex, or any characteristic listed or defined in Section 11135 of the Government Code.

(h) A permitted taxicab company shall do all of the following:

(1) Maintain reasonable financial responsibility to conduct taxicab transportation services in accordance with the requirements of an ordinance adopted pursuant to subdivision (a).

(2) Participate in the pull-notice program pursuant to Section 1808.1 of the Vehicle Code to regularly check the driving records of all taxicab drivers, whether employees or contractors.

(3) Maintain a safety education and training program in effect for all taxicab drivers, whether employees or contractors.

(4) Maintain a disabled access education and training program to instruct its taxicab drivers on compliance with the federal Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12101 et seq.) and amendments thereto, and state disability rights laws, including making clear that it is illegal to decline to serve a person with a disability or who has a service animal.

(5) Maintain its motor vehicles used in taxicab transportation services in a safe operating condition, and in compliance with the Vehicle Code and obtain a Bureau of Automotive Repair inspection annually.

(6) Provide the city or county that has issued a permit under this article an address of an office or terminal where documents supporting the factual matters specified in the showing required by this subdivision may be inspected by the permitting city or county.

(7) Provide for a taxicab driver fingerprint-based criminal history check and a drug and alcohol testing program pursuant to paragraph (3) of subdivision (b).

(8) Comply with all provisions of an ordinance adopted pursuant to subdivision (a).

(9) Provide documentation in the format required by an ordinance adopted pursuant to subdivision (a) substantiating that 50 percent or more of the revenues from fares of the taxicab company or driver are generated from within a specific jurisdiction.

(i) (1) It shall be unlawful to operate a taxicab without a valid permit to operate issued by each jurisdiction in which the taxicab company or driver is substantially located.

(2) The minimum fine for violation of paragraph (1) shall be five thousand dollars (\$5,000) and may be imposed administratively by the permitting city or county.

(j) (1) A taxicab company or a taxicab driver shall not operate within a county unless the company and the driver are substantially located in at least one city within that county or the unincorporated area of the county.

(2) (A) Notwithstanding paragraph (2) of subdivision (k), a city or county shall be deemed to have a taxicab company or taxicab driver substantially located within its jurisdiction if the company or driver operates within the jurisdiction of the city or county and the city or county has enacted a resolution of intention to do either of the following:

(i) Enter into a joint exercise of powers agreement or join a joint powers authority for the purpose of regulating or administering taxicab companies and taxicab drivers.

(ii) Enter into an agreement with a transit agency for the purpose of regulating or administering the taxicab companies and taxicab drivers.

(B) A city or county that is deemed to have a taxicab company or taxicab driver substantially located within its jurisdiction pursuant to subparagraph (A) shall not issue permits or require business licenses except through an agreement or joint powers authority.

(k) For purposes of this section:

(1) "Employment" includes self-employment as an independent driver.

(2) (A) A taxicab company or taxicab driver is substantially located within the jurisdiction where the primary business address of the company or driver is located. A taxicab company or taxicab driver is also substantially located in the jurisdiction within a single county in which trips originating in that jurisdiction account for the largest share of that company or driver's total number of trips within that county over the past year and determined every five years thereafter.

(B) A taxicab company or taxicab driver may be substantially located in more than one jurisdiction.

(3) "City or county" includes a charter city or charter county, but does not include the City and County of San Francisco.

(4) "Prearranged trip" means trip using an online enabled application, dispatch, or Internet Web site.

(l) Notwithstanding any other provision of this section, an airport operator shall have separate and ultimate authority to regulate taxicab access to the airport and set access fees for taxicabs at the airport.

(m) Nothing in this section, or Section 53075.51, 53075.52, or 53075.53 shall affect the authority of a jurisdiction to regulate taxi access to an airport it owns or operates and to set access fees or requirements.

(n) This section shall become operative on January 1, 2019.

SEC. 4. Section 53075.51 is added to the Government Code, to read:

53075.51. (a) Any city or county, regardless of whether a taxicab company or driver is substantially located within its jurisdiction as defined in Section 53075.5, may adopt, by ordinance, operating requirements for taxicab companies and taxicab drivers that do not relate to permitting or business licensing, including, but not limited to, all of the following:

(1) Limits on the number of taxicab service providers that may use taxi stand areas or pickup street hails within that city's or county's jurisdiction. If a city or county chooses to limit the number of taxis that use the stand areas or pick up street hails, the city or county shall identify those vehicles with a window sticker and shall not establish additional requirements or costs to the taxis beyond that authorized by Section 53075.5 or this section.

(2) Requirements on a taxicab service provider to provide services in a manner that provides equal accessibility for all populations within a jurisdiction.

(3) Other public health, safety, or welfare ordinances relating to taxicabs.

(b) Compliance with requirements adopted pursuant to subdivision (a) shall not be a condition for issuance of a permit.

(c) A city or county may administratively impose civil liability for violation of ordinances adopted pursuant to this section. The minimum fine for violation of ordinances relative to this section shall be one hundred dollars (\$100) and shall not exceed one thousand dollars (\$1,000). Civil liability imposed pursuant to this section shall be paid to the city or county where the violation occurred and expended solely for the purposes of this chapter.

(d) This section shall become operative on January 1, 2019.

SEC. 5. Section 53075.52 is added to the Government Code, to read:

53075.52. Beginning January 1, 2018, taxicab companies and taxicab drivers shall collect trip data to determine in what jurisdictions each company and driver are substantially located. Beginning January 1, 2019, the trip data collected in the previous 12 months shall be provided upon date of renewal to the jurisdictions in which the taxicab company and taxicab driver are substantially located, as defined in Section 53075.5.

SEC. 6. Section 53075.53 is added to the Government Code, to read:

53075.53. (a) Notwithstanding Chapter 8 (commencing with Section 5351) of Division 2 of the Public Utilities Code, the City and County of San Francisco shall protect the public health, safety, and welfare by adopting an ordinance or resolution in regard to taxicab transportation service rendered in vehicles designed for carrying not more than eight persons, excluding the driver, which is operated within its jurisdiction.

(b) The City and County of San Francisco shall provide for, but is not limited to providing for, the following:

(1) A policy for entry into the business of providing taxicab transportation service. The policy shall include, but need not be limited to, all of the following provisions:

(A) Employment, or an offer of employment, as a taxicab driver in the jurisdiction, including compliance with all of the requirements of the program adopted pursuant to paragraph (3), shall be a condition of issuance of a driver's permit.

(B) The driver's permit shall become void upon termination of employment.

(C) The driver's permit shall state the name of the employer.

(D) The employer shall notify the City and County of San Francisco upon termination of employment.

(E) The driver shall return the permit to the City and County of San Francisco upon termination of employment.

(2) The establishment or registration of rates for the provision of taxicab transportation service.

(3) (A) A mandatory controlled substance and alcohol testing certification program. The program shall include, but need not be limited to, all of the following requirements:

(i) Drivers shall test negative for each of the controlled substances specified in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, before employment. Drivers shall test negative for these controlled substances and for alcohol as a condition of permit renewal or, if no periodic permit renewals are required, at such other times as the City and County of San Francisco shall designate. As used in this section, a negative test for alcohol means an alcohol screening test showing a breath alcohol concentration of less than 0.02 percent.

(ii) Procedures shall be substantially as in Part 40 (commencing with Section 40.1) of Title 49 of the Code of Federal Regulations, except that the driver shall show a valid California driver's license at the time and place of testing, and except as provided otherwise in this section. Requirements for rehabilitation and for return-to-duty and followup testing and other requirements, except as provided otherwise in this section, shall be substantially as in Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations.

(iii) A test in one jurisdiction shall be accepted as meeting the same requirement in any other jurisdiction. Any negative test result shall be accepted for one year as meeting a requirement for periodic permit renewal testing or any other periodic testing in that jurisdiction or any other jurisdiction, if the driver has not tested positive subsequent to a negative result. However, an earlier negative result shall not be accepted as meeting the preemployment testing requirement for any subsequent employment, or any testing requirements under the program other than periodic testing.

(iv) In the case of a self-employed independent driver, the test results shall be reported directly to the city or county, which shall notify the taxicab leasing company of record, if any, of positive results. In all other cases, the results shall be reported directly to the employing transportation operator, who may be required to notify the City and County of San Francisco of positive results.

(v) All test results are confidential and shall not be released without the consent of the driver, except as authorized or required by law.

(vi) Self-employed independent drivers shall be responsible for compliance with, and shall pay all costs of, this program with regard to themselves. Employing transportation operators shall be responsible for compliance with, and shall pay all costs of, this program with respect to their employees and potential employees, except that an operator may require employees who test positive to pay the costs of rehabilitation and of return-to-duty and followup testing.

(vii) Upon the request of a driver applying for a permit, the City and County of San Francisco shall give the driver a list of the consortia certified pursuant to Part 382 (commencing with Section 382.101) of Title 49 of the Code of Federal Regulations that the city or county knows offer tests in or near the jurisdiction.

(B) No evidence derived from a positive test result pursuant to the program shall be admissible in a criminal prosecution concerning unlawful possession, sale, or distribution of controlled substances.

(c) The City and County of San Francisco may levy service charges, fees, or assessments in an amount sufficient to pay for the costs of carrying out an ordinance or resolution adopted in regard to taxicab transportation services pursuant to this section.

(d) Nothing in this section prohibits the City and County of San Francisco from adopting additional requirements for a taxicab to operate in its jurisdiction.

(e) For purposes of this section, "employment" includes self-employment as an independent driver.

(f) This section shall become operative on January 1, 2019.

SEC. 7. Section 1808.1 of the Vehicle Code is amended to read:

1808.1. (a) The prospective employer of a driver who drives a vehicle specified in subdivision (k) shall obtain a report showing the driver's current public record as recorded by the department. For purposes of this subdivision, a report is current if it was issued less than 30 days prior to the date the employer employs the driver. The report shall be reviewed, signed, and dated by the employer and maintained at the employer's place of business until receipt of the pull-notice system report pursuant to subdivisions (b) and (c). These reports shall be presented upon request to an authorized representative of the Department of the California Highway Patrol during regular business hours.

(b) The employer of a driver who drives a vehicle specified in subdivision (k) shall participate in a pull-notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification request remains valid and uncanceled. As used in this section, participation in the pull-notice system means obtaining a requester code and enrolling all employed drivers who drive a vehicle specified in subdivision (k) under that requester code.

(c) The employer of a driver of a vehicle specified in subdivision (k) shall, additionally, obtain a periodic report from the department at least every 12 months. The employer shall verify that each employee's driver's license has not been suspended or revoked, the employee's traffic violation point count, and whether the employee has been convicted of a violation of Section 23152 or 23153. The report shall be signed and dated by the employer and maintained at the employer's principal place of business. The report shall be presented upon demand to an authorized representative of the Department of the California Highway Patrol during regular business hours.

(d) Upon the termination of a driver's employment, the employer shall notify the department to discontinue the driver's enrollment in the pull-notice system.

(e) For the purposes of the pull-notice system and periodic report process required by subdivisions (b) and (c), an owner, other than an owner-operator as defined in Section 34624, and an employer who drives a vehicle described in subdivision (k) shall be enrolled as if he or she were an employee. A family member and a volunteer driver who drives a vehicle described in subdivision (k) shall also be enrolled as if he or she were an employee.

(f) An employer who, after receiving a driving record pursuant to this section, employs or continues to employ as a driver a person against whom a disqualifying action has been taken regarding his or her driving privilege or required driver's certificate, is guilty of a public offense, and upon conviction thereof, shall be punished by confinement in a county jail for not more than six months, by a fine of not more than one thousand dollars (\$1,000), or by both that confinement and fine.

(g) As part of its inspection of bus maintenance facilities and terminals required at least once every 13 months pursuant to subdivision (c) of Section 34501, the Department of the California Highway Patrol shall determine whether each transit operator, as defined in Section 99210 of the Public Utilities Code, is then in compliance with this section and Section 12804.6, and shall certify each operator found to be in compliance. Funds shall not be allocated pursuant to Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code to a transit operator that the Department of the California Highway Patrol has not certified pursuant to this section.

(h) (1) A request to participate in the pull-notice system established by this section shall be accompanied by a fee determined by the department to be sufficient to defray the entire actual cost to the department for the notification service. For the receipt of subsequent reports, the employer shall also be charged a fee established by the department pursuant to Section 1811. An employer who qualifies pursuant to Section 1812 shall be exempt from any fee required pursuant to this section. Failure to pay the fee shall result in automatic cancellation of the employer's participation in the notification services.

(2) A regularly organized fire department, having official recognition of the city, county, city and county, or district in which the department is located, shall participate in the pull-notice program and shall not be subject to the fee established pursuant to this subdivision.

(3) The Board of Pilot Commissioners for Monterey Bay and the Bays of San Francisco, San Pablo, and Suisun, and its port agent shall participate in the pull-notice system established by this section, subject to Section 1178.5 of the Harbors and Navigation Code, and shall not be subject to the fees established pursuant to this subdivision.

(i) The department, as soon as feasible, may establish an automatic procedure to provide the periodic reports to an employer by mail or via an electronic delivery method, as required by subdivision (c), on a regular basis without the need for individual requests.

(j) (1) The employer of a driver who is employed as a casual driver is not required to enter that driver's name in the pull-notice system, as otherwise required by subdivision (a). However, the employer of a casual driver shall be in possession of a report of the driver's current public record as recorded by the department, prior to allowing a casual driver to drive a vehicle specified in subdivision (k). A report is current if it was issued less than six months prior to the date the employer employs the driver.

(2) For the purposes of this subdivision, a driver is employed as a casual driver when the employer has employed the driver less than 30 days during the preceding six months. "Casual driver" does not include a driver who operates a vehicle that requires a passenger transportation endorsement.

(k) This section applies to a vehicle for the operation of which the driver is required to have a class A or class B driver's license, a class C license with any endorsement issued pursuant to Section 15278, a class C license issued pursuant to Section 12814.7, or a certificate issued pursuant to Section 12517, 12519, 12520, 12523, 12523.5, or 12527, a passenger vehicle having a seating capacity of not more than 10 persons, including the driver, operated for compensation by a charter-party carrier of passengers or passenger stage corporation pursuant to a certificate of public convenience and necessity or a permit issued by the Public Utilities Commission, or a permitted taxicab company as described in Section 53075.51 of the Government Code.

(l) This section shall not be construed to change the definition of "employer," "employee," or "independent contractor" for any purpose.

(m) A motor carrier who contracts with a person to drive a vehicle described in subdivision (k) that is owned by, or leased to, that motor carrier, shall be subject to subdivisions (a), (b), (c), (d), (f), (j), (k), and (l) and the employer obligations in those subdivisions.

(n) Reports issued pursuant to this section, but only those for a driver of a taxicab engaged in transportation services as described in subdivision (a) of Section 53075.5 of the Government Code, shall be presented upon request, during regular business hours, to an authorized representative of the administrative agency responsible for issuing permits to taxicab transportation services pursuant to Section 53075.5 of the Government Code.

SEC. 8. The Legislature finds and declares that taxicabs face a substantial competitive disadvantage due to the numerous and differing requirements from city to city while all other modes of for-hire transportation are regulated by one statewide entity, and, therefore, the regulation of taxicab transportation services and taxi cab service providers is an issue of statewide concern and not a municipal affair, as that term is used in Section 5 of Article XI of the California Constitution. Therefore, this act shall apply to charter cities.

SEC. 9. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act or because costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF WATSONVILLE, CALIFORNIA, DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1. ENACTMENT.

Title 5 (Public Welfare, Morals, and Conduct) of the Watsonville Municipal Code is hereby amended by rescinding Chapter 22 (Taxicabs) and adding a new Chapter 22 entitled Taxicabs to read in words and figures as follows:

CHAPTER 22 TAXICABS

PART 1 GENERAL

SEC. 5-22.11 PURPOSE AND INTENT.

This chapter is to further the public convenience and necessity of transportation services by taxicabs in order to serve promptly, adequately and efficiently the needs and convenience of the general public.

SEC. 5-22.12 DEFINITIONS.

For purposes of this chapter, certain words and phrases are defined and shall be construed as set forth herein unless it is apparent from the context that a different meaning is intended.

- (a) "Chief of Police" shall mean the Chief of the Watsonville Police Department, or their duly authorized agents and representatives.
- (b) "Council" shall mean the Watsonville City Council.
- (c) For Hire. A vehicle is "for-hire" if any fare, fee, charge or other consideration is payable for the transportation service of the vehicle, whether paid or not.

- (d) “Operator” shall mean the human being or legal entity registered with the Department of Motor Vehicles of the State of California (“DMV”) as the owner of a vehicle or vehicles for hire, or who has a legal right to possession of such vehicle pursuant to a lease or rental agreement. The act or omission of any operator’s officer, agent, employee or independent contractor, or of any driver whose services are engaged by any of the above, is for all purposes the act or omission of the operator of the for-hire transportation services regulated by this chapter.
- (g) “Taxicab” shall mean a passenger vehicle, designed for carrying not more than eight persons, excluding the driver, used to transport persons for hire on public streets; the compensation for which is determined by a taximeter or flat rate which determines a charge for distance traveled and/or time expended.
- (h) “Substantially located” shall mean in reference to a city or county that the taxicab company meets any of the following:
- (1) Has its primary business address within that city’s or county’s jurisdiction.
 - (2) The total number of prearranged and non-prearranged trips that originate within that city’s or county’s jurisdiction account for the largest share of the taxicab company’s total number of trips over the previous calendar year, as determined annually.
 - (3) A taxicab company that starts taxi operations after January 1, 2019, in reference to a city or county in which that company had not operated before January 1, 2019, the following:
 - (i) In the first year of its operation, the jurisdiction where that taxicab company has its primary business address.

- (ii) After the first year of operation, it meets either of the tests described in (1) or (2).
- (i) “Taximeter” is any instrument or device approved for use under the applicable laws of the State, which mechanically or electronically calculates the charge for the use of a taxicab. The taximeter registers such charge by means of figures, including dollars and cents, calculated by an initial charge and thereafter a charge for distance traveled and/or waiting time.

PART 2: PERMITS

SEC. 5-22.21 PERMIT REQUIREMENTS.

- (a) No operator substantially located in the City shall operate or permit the operation of a taxicab in Watsonville without having first obtained an operator’s permit from the Chief of Police and a City business license (pursuant to Chapter 4 of Title 3).
- (b) An operator substantially located outside the City shall obtain prior approval of the Chief of Police to use the taxicab stands and pick up street hails within the City.
- (c) An operator substantially located and permitted by another city or by the county may operate in the City on a prearranged basis only. That operator may pick up trips originating through an online enabled application, phone dispatch, or internet web site. That operator may not use the taxi stand or pick-up street hails within the City without prior authorization of the Chief of Police.
- (d) An applicant for a operator’s permit shall be the registered owner of at least one taxicab at the time of filing the application pursuant to 5-22.24; and must continue to own and maintain at least one taxicab and one permitted driver.

- (e) It shall be unlawful to operate a taxicab without a valid operator's permit issued by each city or county in which an operator is substantially located. The minimum fine for operating without a permit from the city or county in which a taxicab company is substantially located shall be five thousand dollars (\$5,000).

SEC. 5-22.22 OPERATOR'S PERMIT DENIALS.

The Chief of Police shall deny the granting of an operator's permit if it shall appear to their satisfaction that the applicant proposes to operate vehicles which are inadequate or unsafe, or that the applicant has plead guilty or been convicted of a felony or of any narcotic law or of any penal law involving moral turpitude, or in case the applicant has not complied with all the terms and conditions of this chapter. The Chief of Police may further deny the granting of any operator's permit if it appears to their satisfaction that the applicant is not a financially responsible person, or any reasonable cause which within their sound discretion, renders the proposed operation undesirable to health, safety, or welfare of the people of the City of Watsonville.

SEC. 5-22.23 QUOTA ON OPERATOR'S PERMITS.

No more than one (1) non-wheelchair accessible taxicab for each two thousand seven hundred (2,700) residents (or major fraction thereof) of the City of Watsonville as reflected by the last United States Census, shall be permitted to operate in the City.

SEC. 5-22.24 APPLICATION.

Every applicant for a operator's permit shall execute and file with the Police Department a verified application, upon forms provided by the City, containing the following information:

- (a) The applicant's name, home address, and business address;

- (b) Sufficient information to demonstrate that the operator is substantially located within the City. This shall include, as a minimum, the business address and the trip data demonstrating that the total number of prearranged and non-prearranged trips that originate within the City's jurisdiction account for the largest share of the operator's total number of trips over the previous calendar year.
- (c) The applicant's trade name and distinguishing vehicle markings, color or colors if any;
- (d) The applicant's past taxicab service experience;
- (e) Whether any license, permit or certificate issued to the applicant has been denied, revoked or suspended by any public entity. The circumstances of said denial, revocation or suspension shall be fully explained;
- (f) Whether the applicant has been convicted of a crime within five years before the date of the application, including the nature of the crimes;
- (g) The number of vehicles proposed to be used as taxicabs; and
- (h) Such further information as the Police Chief may reasonably require in order to comply with the provisions of this chapter.

SEC. 5-22.25 APPLICATION: BUSINESS LICENSE REQUIRED.

Any person desiring to obtain an operator's license to be substantially located within the City, shall apply to the Chief of Police. Each application shall be accompanied by a policy of liability insurance, shall be in writing, and shall set forth a description of

each motor vehicle which the applicant proposes to use, giving the name of the vehicle manufacturer, VIN, and the State license number.

SEC. 5-22.26 APPLICATION RENEWAL.

The renewal of a operator's permit shall be made annually to the Police Department. The renewal procedure shall be limited to the review and updating of the operator's permit application information including trip data from the previous year. If there are substantial changes in the operator's application information, the Police Chief may require that the owner submit a new application for review and approval.

PART 3: INSURANCE

SEC. 5-22.31 INSURANCE REQUIRED.

It shall be unlawful for any owner or operator to drive or operate any taxicab, or cause the same to be driven or operated, in the City, and no permit for the operation thereof shall be granted unless there is on file with the City Clerk, and in full force and effect at all times while such taxicab is being operated, a policy of insurance, approved by the City Risk Manager, with a company authorized to do business in the State insuring the operator and any owner of any taxicab (giving the VIN and State license number) against loss by reason of injury or damage which to persons or property from the negligent operation or defective construction of such taxicabs or from violations of the provisions of this chapter or the laws of the State.

SEC. 5-22.32 INSURANCE MINIMUM REQUIREMENTS.

The liability and property damage insurance required within the City of the owner or operator of a taxicab shall be the minimum of that amount set by the City Risk Manager. Such policy of insurance shall guarantee the payment to any and all persons

suffering injury or damage to persons or property in such amount, as set by the City Risk Manager, as may be agreed upon by the parties by way of settlement or as awarded in any final judgment rendered in any court against the operator, owner or driver, or any or all, within the limits required by the City.

SEC. 5-22.33 INSURANCE: CANCELLATION.

If such policy of insurance is canceled, or the authority of such company to do business in the State shall be revoked or cancelled, the City Risk Manager may require such operator, owner or driver to replace such policy with another policy satisfactory to the City Risk Manager and, in default thereof, may revoke the operator's permit.

No such policy of insurance shall be canceled by the company issuing the same except upon five (5) days' notice to the City, and the policy of insurance shall contain a provision to that effect.

SEC. 5-22.34 FARES AND TAXIMETERS.

- (a) Operators may set their rates and fares and use flat rate pricing in an amount established by resolution of the City Council from time to time. However, no person shall operate a taxicab unless the schedule of rates and fares for the use of the taxicab is posted in a conspicuous place inside the taxicab.
- (b) An operator may use any type of taximeter, device or technology approved by the Division of Measurement Standards to calculate fares, including the use of Global Positioning System metering, provided that the device or technology complies with Section 12500.5 of the California Business and Professions Code and with all regulations promulgated pursuant to Section 12107 of the Business and Professions Code.

- (c) A copy of such rate schedule shall be filed in the offices of the City Clerk and Chief of Police.
- (d) It shall be unlawful for any person to refuse to pay the lawful fare as posted.
- (e) All disputes as to fare shall be forthwith determined by the officer in charge of the police station, and, if his decision is in favor of the passenger, the driver shall convey him to the police station and back to his original destination without charge.

SEC. 5-22.35 SOLICITING PASSENGERS: MISREPRESENTATION.

It shall be unlawful for any person soliciting patronage for any public passenger vehicle for hire to represent by word, sign, hatband, insignia, or badge, or by their manner or style of dress, that the vehicle for which they are soliciting such patronage is a vehicle owned or operated by a person other than the one who actually owns and operates such vehicle.

PART 4: VEHICLES

SEC. 5-22.41 SAFETY INSPECTION.

- (a) All operators shall maintain motor vehicles used in taxicab transportation services in a safe operating condition, and in compliance with the California Vehicle Code, subject to annual inspection at the Police Department and at a facility that is certified by the National Institute for Automotive Service Excellence or a facility registered with the Bureau of Automotive Repair. The inspection shall be completed before renewal of the operator's permit. If the taxicab successfully completes the safety inspection, a taxicab safety permit sticker shall be issued and shall be displayed in the taxicab rear window.

- (b) All operators shall provide a safety inspection report, pursuant to subdivision (a), to the Chief of Police at the time of operator permit renewal.
- (c) The registered owner of a taxicab, who is aware of or should have been aware of any unsafe condition of the taxicab, shall not allow the taxicab to be used until necessary repairs are made.

SEC. 5-22.42 SANITATION OF VEHICLES.

Every taxicab shall be maintained at all times in a clean and sanitary condition. No driver of any taxicab shall accept, take into the taxicab, or transport any greater number of passengers than the rated seating capacity of the motor vehicle.

SEC. 5-22.43 SUBSTITUTION OF VEHICLES.

Any operator with a license for the operation of a taxicab may substitute another motor vehicle for that for which the permit was granted but, before doing so, shall obtain and file with the City Clerk the consent of the insurer on the policy of insurance for such substitution.

SEC. 5-22.44 VEHICLES TO BE NUMBERED.

The operator's permit to engage in the business of operating a vehicle for hire shall designate a separate number to be placed upon each vehicle to be operated by the permittee.

SEC. 5-22.45 VEHICLES OBSTRUCTING STREET TRAFFIC.

It shall be unlawful for any driver operating a taxicab to obstruct a street or other traffic in the course of receiving or discharging passengers.

PART 5: DRIVERS

SEC. 5-22.51 TAXICAB DRIVER'S PERMIT

No person may drive a taxicab in Watsonville without a taxicab drivers permit

SEC. 5-22.52 TAXICAB DRIVERS: CONTROLLED SUBSTANCES AND ALCOHOL.

- (a) No operator's permits or taxicab driver's permits shall be issued or renewed unless the holder at the time of permit issuance or renewal files with the Police Department a certification that the holder maintains a mandatory controlled substance and alcohol testing certification program conforming to 49 CFR Part 40 (Section 40.1 et seq.) and Part 382 (Section 382.101 et seq.) and California Government Code Section 53075.5 for all drivers of vehicles operated under the certificate.
- (b) No operator's permit or taxicab driver's permit shall be issued or renewed unless the holder at the time of the permit issuance or renewal files with the Police Department a certification that each driver of vehicles operated under the certificate has tested negatively for controlled substances and alcohol under a mandatory controlled substance and alcohol testing certification program conforming to Parts 40 and 382 of Title 49 of the Code of Federal Regulations and California Government Code Section 53075.5.
- (c) A driver who receives a positive test result during a pre-employment drug screening procedure may not resubmit an application for a taxicab driver's permit for a period of five years.
- (d) If a taxicab driver tests positive during a random drug screening process, the taxicab driver's permit will be suspended pursuant to 5-22.64, Emergency Suspension, until the driver has successfully completed all the requirements

placed on him/her by the Substance Abuse Professional (SAP). If this same taxicab driver tests positive again during a random drug screening process, their taxicab driver's permit will be revoked for a period of not less than five years.

SEC. 5-22.53 TAXICAB DRIVERS: PERMIT APPLICATION.

- (a) No person shall operate any taxicab in the City unless the person has a valid driver's permit to do so as hereinafter provided.
- (b) A taxicab driver substantially located and permitted by another city within the county or by the county may operate in the City on a prearranged basis only. That driver may pick up trips originating through online enabled application, phone dispatch, or Internet Web site. That driver may not use a taxi stand or pick-up street hails without authorization of the Chief of Police.
- (c) Application for a taxicab driver's permit shall be made in writing to the Chief of Police setting forth the following information:
 - (1) The applicant's name;
 - (2) The applicant's age;
 - (3) The applicant's residence address;
 - (4) The applicant's past experience with regard to taxicab service;
 - (5) The names and addresses of the applicant's employers during the preceding three years;
 - (6) Such additional information as the Chief of Police may require.

SEC. 5-22.54 TAXICAB DRIVERS: PERMIT FEE AND ANNUAL RENEWAL FEE.

- (a) A Taxicab Drivers Permit fee shall be in an amount established by resolution of the City Council from time to time, and shall be charged and collected by the Chief of Police for the issuance of each driver's permit.
- (b) The renewal of a taxicab drivers permit shall be made annually to the Police Department and will be subject to a fee in an amount established by resolution of the City Council from time to time.

SEC. 5-22.55 TAXICAB DRIVERS: PERMIT NONTRANSFERABLE.

No driver's permit shall be transferable in any event.

PART 6: ENFORCEMENT

SEC. 5-22.61 SUSPENSION OR REVOCATION OF OPERATOR'S PERMIT.

The Chief of Police, or the Council on appeal, shall have the power to suspend or revoke a taxicab permit issued under this chapter, on any of the grounds stated in this chapter or on any of the following grounds:

- (a) The violation by the owner of any of the terms, conditions or requirements of the operator's permit or of this chapter.
- (b) Any act or omission of the owner of any fact or condition which, if it existed at the time the application for a operator's permit was filed, would have warranted the denial of the application.
- (c) Cancellation or suspension of any insurance policy or coverage required of the owner.
- (d) Failure of the owner to pay any judgment against the owner for personal injury or death, or property damage arising out of the conduct of business under the

operator's permit issued pursuant to this chapter, within thirty (30) days after the judgment has become final.

- (e) Voluntary written request by the owner to suspend the operator's permit for a definite period of time.
- (f) Failure of the owner to pay when due any applicable taxes imposed by the City.
- (g) Any activity that impairs the safety of passengers.

SEC. 5-22.62 SUSPENSION OR REVOCATION OF TAXICAB DRIVER'S PERMIT.

The Chief of Police, or the Council on appeal, shall have the power to suspend or revoke a taxicab driver's permit issued under this chapter, on any of the grounds stated in this chapter or on any of the following grounds:

- (a) Suspension, revocation or expiration of the driver's privilege granted by the Department of Motor Vehicles of the State to operate a motor vehicle on the public highways of the State.
- (b) The violation by the driver of any of the terms, conditions or requirements of the taxicab driver's permit or of this chapter.
- (c) Any act or omission of the driver or any fact or condition which, if it existed at the time the application for a taxicab driver's permit was filed, would have warranted the denial of the application.
- (d) Failure of the driver to pay any judgment against the driver for personal injury or death, or property damage arising out of the driver's operation of a public transportation vehicle, within thirty (30) days after the judgment has become final.
- (e) The driver consumed drugs or alcohol or is under the influence of drugs or alcohol while on duty or is convicted of a crime relating to drugs or alcohol.
- (f) Failure of the driver to pay when due any applicable taxes imposed by the City.

SEC. 5-22.63 NOTICE AND HEARING FOR SUSPENSION OR REVOCATION.

Revocations or suspensions shall be administered as follows:

- (a) A operator's permit or a taxicab driver's permit issued pursuant to this chapter shall be revoked or suspended only after the owner or driver has been given reasonable notice and opportunity to be heard.
- (b) Whenever the Chief of Police has reasonable cause to believe that grounds for the suspension or revocation of a permit exists, he/she shall give the holder of the operator's permit or taxicab permit written notice stating the alleged grounds for the suspension or revocation and the effective date of the suspension or revocation. This notice will be by certified mail, return receipt requested, sent to the address shown on the last application or renewal, or by personal service. The decision of the Chief of Police to revoke or suspend an operator's permit or taxicab driver's permit may be appealed to the Council. The notice shall provide the permit holder with information on the appeal process.
- (c) The license holder must submit a request for an appeal hearing to the Council within ten (10) days receipt of written notice.
- (d) Upon receipt of a request for an appeal hearing, the Council shall conduct a hearing within forty-five (45) days of the request. The Council shall notify the permit holder in writing of the date, time, and place of the hearing. The hearing shall not be less than ten (10) days after the service of the notice of hearing by postage of the notice by certified mail, return receipt requested, or by personal service.
- (e) The suspension or revocation shall be stayed pending the outcome of the appeal hearing.

- (f) At the hearing, both the holder of the operator's permit or taxicab driver's permit and the Chief of Police shall have the right to appear and be represented by counsel and to present evidence and arguments which are relevant to the grounds for the appeal, as stated in the written grounds for the appeal hearing. Within ten (10) working days of the conclusion of the hearing, the Council shall issue a written decision which states whether the decision of the Chief of Police is upheld, modified, or reversed; the length of any suspension, and the effective date of the suspension or revocation. The decision of the Council shall be served on the holder of the permit by certified mail, return receipt requested, or by personal service.
- (g) The decision of the Council shall be final.
- (h) Upon a written decision of the Council which suspends or revokes an operator's permit or taxicab driver's permit, the holder of the operator's permit or taxicab driver's permit shall surrender the permit to the Chief of Police immediately after service of the notice of the decision.

SEC. 5-22.64 EMERGENCY SUSPENSION.

- (a) The Chief of Police may issue an order suspending a operator's permit or a taxicab driver's permit for a period not exceeding ten (10) days without having conducted a hearing therefor, if the Chief determines that the continued use of the permit will cause immediate hazard to the public safety, health or welfare.
- (b) Within ten (10) days of the effective date of the order, the Chief of Police shall hold a hearing for the owner or driver to show cause why the permit should not be suspended or revoked.

- (c) The order issued by the Chief of Police under subsection (a) of this section shall also contain a notice of the hearing setting forth the date, time and place of the hearing.

SEC. 5-22.65 NOTICE OF VIOLATION AND HEARING.

Any person found to be operating a taxicab in the City in violation of the ordinance shall be issued a notice of violation by the Police Department, in person or by mail.

- (a) The violator shall schedule a hearing by mail, phone or in person with the Police Department within twenty (20) days of receipt of the notice of violation.
- (b) The Police Department shall conduct a hearing before issuing a citation to the violator or imposing a penalty. The hearing official may conduct the hearing informally, both as to rules of procedure and admission of evidence, in any manner which will provide a fair hearing.
- (c) If the violator waives their right to a hearing in writing, fails to schedule a hearing with the Police Department in the permitted time, or fails to appear at the scheduled hearing, the Police Department shall affirm the violation and issue a citation.
- (d) The hearing official shall set forth their decision to affirm or cancel the notice of violation in writing. If the notice of violation is affirmed, a citation shall be issued imposing a penalty not to exceed five thousand dollars (\$5,000.00). The hearing official shall consider the following factors when determining the penalty amount:
 - (1) Whether the violator has previously violated the license or driver's permit requirements or other provisions of this chapter;

- (2) Whether the violator concealed or attempted to conceal their noncompliance with the license or driver's permit requirements; and
- (3) Such additional factors as the hearing official may deem appropriate.
- (e) This section shall supersede any penalty provisions set forth by any ordinance or resolution of the City.

SEC. 5-22.66 COMPLAINTS.

In the consideration of applications for a driver's and/or owner's license, and in the cancellation thereof by the Chief of Police and/or the Council, the Chief of Police and/or the Council may take into consideration the number of complaints which may have been made against any driver and/or owner for overcharging or exceeding the schedule of rates listed in such public motor vehicle and with the City Clerk and Chief of Police, and for other causes.

SECTION 2. PUBLICATION.

This ordinance shall be published in the Watsonville Register-Pajaronian in compliance with the provisions of the Charter of the City of Watsonville.

SECTION 3. EFFECTIVE DATE.

This ordinance shall be in force and take effect thirty (30) days after its final adoption.

TO: Matthew D. Huffaker, City Manager

FROM: Cindy Czerwin, Administrative Services Director
Suzi Merriam, Community Development Director

SUBJECT: Fee Study, Adoption of New Fees

AGENDA ITEM: February 11, 2020

City Council

RECOMMENDATION:

Staff recommends that the City Council adopt fees as set forth in Exhibit "A" effective May 5, 2020. Fees would thereafter increase each year by the San Francisco Bay Area Consumer Price Index (CPI) from April to April every July beginning on July 1, 2021

DISCUSSION:

Staff from the Community Development Department (CDD) has been working on implementing a new permitting software system. As part of that larger project, staff recognized a need to review the current fee schedule to better match the new permitting system's structure and the Department's practices. CDD staff, along with the Finance department contracted with Willdan Financial Services to assist in reviewing the existing fees. The existing fee structure was reviewed with a focus on streamlining and improved efficiency, including aligning the fee schedule with Department practices and system capabilities and secondarily to updating fees based on the cost of providing services and increased cost recovery.

The reality of the local government fee environment is that significant increases to achieve 100% cost recovery can often not be feasible, desirable, or appropriate depending on policy direction particularly in a single year. The recommended fees identified herein are either at or less than full cost recovery

Willdan Financial Services focused on fees charged by the Community Development Department for building, planning, and permitting services. The Consultants developed a model to create fully burdened hourly rates for each employee that provides the associated services. That includes the salary, benefits, and overhead costs for the Department and the City. Staff then reviewed every fee to determine how much time it takes to perform that service on average. At the same time staff simplified the overall fee structure by updating units of measurement, combining fees, deleting outdated fees, and adding fees to ensure

the new fee schedule would align with current practices and the soon to be implemented permitting system. Perhaps the biggest change is in new construction building permit fees. What had previously been 3 different schedules based on construction type has been combined into 1 schedule based on International Code Council (ICC) Occupancy Type and square footage.

The study also reviewed user fees. User fees are charged for those services that can be directly assigned to a specific individual and task. User fees represent services that provide limited benefit to the community as a whole and primarily benefit specific individuals. User fees insure costs are recovered from the benefitting individual, while reducing reliance on the General Fund for such services. By law, cities are prohibited from charging more than the cost of delivering services. However, cities are permitted to subsidize services if they so choose based on any number of policy considerations. Any resulting subsidy is then paid through other city funds, in this case, the City's General Fund.

Attachment A includes the full report from Willdan Financial Services outlining the laws regulating how local governments can charge fees, details on the methodology they followed, the calculated full cost fee, the staff recommended fee, the change, and the percent of remaining subsidy if any. The last fee study and fee schedule update was completed in 2017.

STRATEGIC PLAN:

This action supports the City Council's strategic goal of fiscal health by ensuring that we are charging fees accurately and fairly.

FINANCIAL IMPACT:

Staff expect the financial impact of this study to be minimal as increased cost recovery was not the primary goal of this study. Some fees are increasing to reflect increasing costs of service, but with an effective date of May 5th, we will also be forgoing the CPI increase that would typically be applied in July 2020.

ALTERNATIVES:

The council may:

- 1) Charge full cost for all fees;
- 2) Charge a lesser percentage of the full cost of all or any of the fees; or,
- 3) Some combination of these alternatives

Executive Summary

The City of Watsonville engaged Willdan Financial Services (Willdan) to determine the full costs incurred by the City to support the Community Development activities for which the City charges user fees. Due to the complexity and the breadth of performing a comprehensive review of fees, Willdan employed a variety of fee methodologies to identify the full costs of individual fee and program activities. This report and the appendices herein identify 100% full cost recovery for services and the recommended level of recovery as determined through discussion with departmental staff.

The reality of the local government fee environment is that significant increases to achieve 100% cost recovery can often not be feasible, desirable, or appropriate depending on policy direction —particularly in a single year. The recommended fees identified herein are either at or less than full cost recovery.

User Fee Background

Background

As part of a general cost recovery strategy, local governments adopt user fees to fund programs and services that provide limited or no direct benefit to the community as a whole. As cities struggle to maintain levels of service and variability of demand, they have become increasingly aware of subsidies provided by the General Fund and have implemented cost-recovery targets. To the extent that governments use general tax monies to provide individuals with private benefits, and not require them to pay the full cost of the service (and, therefore, receive a subsidy), the government is limiting funds that may be available to provide other community-wide benefits. In effect, the government is using community funds to pay for private benefit. Unlike most revenue sources, cities have more control over the level of user fees they charge to recover costs, or the subsidies they can institute.

Fees in California are required to conform to the statutory requirements of the California Constitution, Proposition 218, and the California Code of Regulations. The Code also requires that the City Council adopt fees by either ordinance or resolution, and that any fees in excess of the estimated total cost of rendering the related services must be approved by a popular vote of two-thirds of those electors voting because the charge would be considered a tax and not a fee.

California User Fee History

Before Proposition 13, California cities were less concerned with potential subsidies and recovering the cost of their services from individual fee payers. In times of fiscal shortages, cities simply raised property taxes, which funded everything from police and recreation to development-related services. However, this situation changed with the passage of Proposition 13 in 1978.

Proposition 13 established the era of revenue limitation in California local government. In subsequent years, the state saw a series of additional limitations to local government revenues. Proposition 4 (1979) defined the difference between a tax and a fee: a fee can be no greater than the cost of providing the service; and Proposition 218 (1996) further limited the imposition of taxes for certain classes of fees. As a result, cities were required to secure a supermajority vote in order to enact or increase taxes. Since the public continues to resist efforts to raise local government taxes, cities have little control and very few successful options for new revenues. Compounding this limitation, the State of California took a series of actions in the 1990's and 2000's to improve the State's fiscal situation—at the expense of local governments. As an example, in 2004-05, the Educational Revenue Augmentation Funds (“ERAF”) take-away of property taxes and the reduction of Vehicle License Fees have severely reduced local tax revenues.

In addition, on November 2, 2010, California voters approved Proposition 26, the “Stop Hidden Taxes Initiative”, which is aimed at defining “regulatory fees” as a special tax rather than a fee, thus requiring approval by two-thirds vote of local voters. These regulatory fees are typically intended to mitigate the societal and environmental impacts of a business or person's activities. Proposition 26 contains seven categories of exceptions. The vast majority of fees that cities would seek to adopt will most likely fall into one or more of these exemptions.

Additional Policy Considerations

The recent trend for municipalities is to update their fee schedules to reflect the actual costs of certain public services primarily benefitting users. User Fees recover costs associated with the provision of specific services benefiting the user, thereby reducing the use of General Fund monies for such purposes.

In addition to collecting the direct cost of labor and materials associated with processing and administering user services, it is common for local governments to recover support costs. Support costs are those costs relating to a local government's central service departments that are properly allocable to the local government's operating departments. Central services support cost allocations were incorporated using the resulting indirect overhead percentages determined through the Cost Allocation Plan. This plan was developed in a prior year to determine the burden placed upon central services by the operating departments in order to allocate a proportionate share of central service cost.

As labor effort and costs associated with the provision of services fluctuate over time, a significant element in the development of any fee schedule is that it has the flexibility to remain current. Therefore, it is recommended that the City include an inflationary factor in the resolution adopting the fee schedule to allow the City Council, by resolution, to annually increase or decrease the fees.

The City may employ many different inflationary factors. The most commonly used inflator is some form of the Consumer Price Index (CPI) as it is widely well known and accepted. A similar inflator is the implicit price deflator for GDP, which is much like the CPI except that while the CPI is based on the same "basket" of goods and services every year, the price deflators' "basket" can change year to year. Since the primary factor for the cost of a City's services is usually the costs of the personnel involved, tying an inflationary factor that connects more directly to the personnel costs can be suitable if there is a clear method, or current practice of obtaining said factor.

Each City should use an inflator that they believe works the best for their specific situation and needs. It is also recommended that the City perform this internal review annually with a comprehensive review of services and fees performed every three to five years, which would include adding or removing fees for any new or eliminated programs/services.

Study Objective

As the City of Watsonville seeks to efficiently manage limited resources and adequately respond to increased service demands, it needs a variety of tools. These tools provide assurance that the City has the best information and the best resources available to make sound decisions, fairly and legitimately set fees, maintain compliance with state law and local policies, and meet the needs of the City administration and its constituency. Given the limitations on raising revenue in local government, the City recognizes that a User Fee Study is a very cost-effective way to understand the total cost of services and identify potential fee deficiencies. Essentially, a User Fee is a payment for a requested service provided by a local government that primarily benefits an individual or group.

The total cost of each service included in this analysis is based on the full cost of providing City services, including direct salaries and benefits of City staff, direct departmental costs, and indirect costs from central service support. This study determines the full cost recovery fee for the City to provide each service; however, each fee is set at the City's discretion, up to 100% of the total cost, as specified in this report.

The principle goal of the study was to help the City determine the full cost of the services that the City provides. In addition, Willdan established a series of additional objectives including:

- Developing a rational basis for setting fees
- Identifying subsidy amount, if applicable, of each fee in the model
- Enhancing fairness and equity
- Ensuring compliance with State law
- Developing an updatable and comprehensive list of fees
- Maintaining accordance with City policies and goals

The study results will help the City better understand its true costs of providing services and may serve as a basis for making informed policy decisions regarding the most appropriate fees, if any, to collect from individuals and organizations that require individualized services from the City.

Scope of the Study

The scope of this study encompasses a review and calculation of the user fees charged by the following Watsonville departments and fee groups:

- Building
- Fire Related Construction
- Planning

The study involved the identification of existing and potential new fees, fee schedule restructuring, data collection and analysis, orientation and consultation, quality control, communication and presentations, and calculation of individual service costs (fees) or program cost recovery levels.

Aim of the Report

The User Fee Study focused on the cost of City services, as City staff currently provides them at existing, known, or reasonably anticipated service and staff levels. This report provides a summary of the study results, and a general description of the approach and methods Willdan and City staff used to determine the recommended fee schedule. The report is not intended to document all of the numerous discussions throughout the process, nor is it intended to provide influential dissertation on the qualities of the utilized tools, techniques, or other approaches.

Project Approach and Methodology

Conceptual Approach

The basic concept of a User Fee Study is to determine the “reasonable cost” of each service provided by the City for which it charges a user fee. The full cost of providing a service may not necessarily become the City’s fee, but it serves as the objective basis as to the maximum amount that may be collected.

The standard fee limitation established in California law for property-related (non-discretionary) fees is the “estimated, reasonable cost” principle. In order to maintain compliance with the letter and spirit of this standard, every component of the fee study process included a related review. The use of budget figures, time estimates, and improvement valuation clearly indicates reliance upon estimates for some data.

Fully Burdened Hourly Rates

The total cost of each service included in this analysis is primarily based on the Fully Burdened Hourly Rates (FBHRs) that were determined for City personnel directly involved in providing services. The FBHRs include not only personnel salary and benefits, but also any costs that are reasonably ascribable to personnel. The cost elements that are included in the calculation of fully burdened rates are:

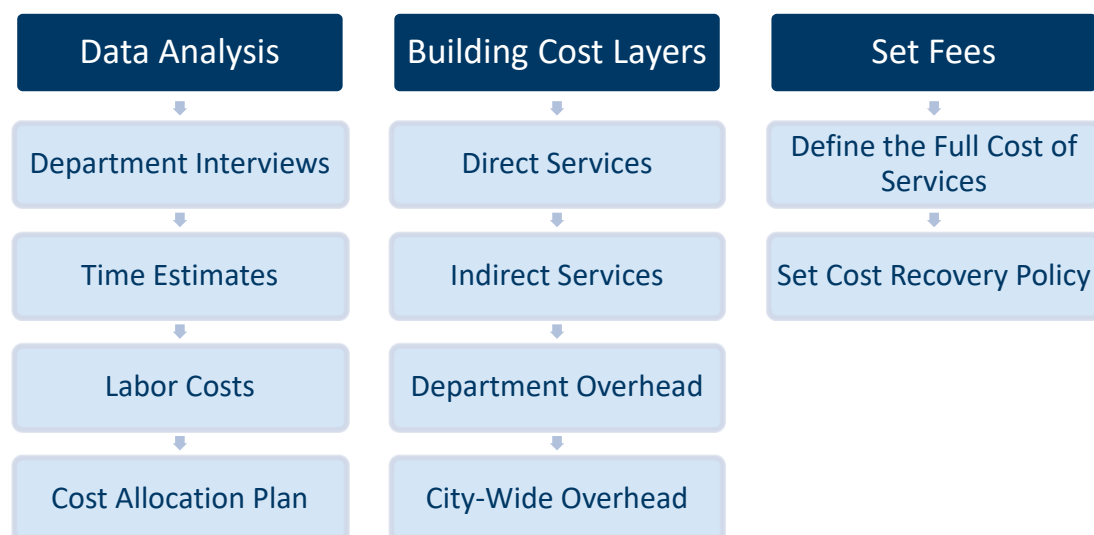

- Salaries & benefits of personnel involved
- Operating costs applicable to fee operations
- Departmental support, supervision, and administration overhead
- Internal Service Costs charged to each department
- Indirect City-wide overhead costs calculated through the Cost Allocation Plan

An important factor in determining the fully burdened rate is in the calculation of productive hours for personnel. This calculation takes the available workable hours in a year of 2,080 and adjusts this figure to account for calculated or anticipated hours’ employees are involved in non-billable activities such as paid vacation, sick leave, emergency leave, holidays, and other considerations as necessary. Dividing the full cost by the number of productive hours provides the FBHR.

The FBHRs are then used in conjunction with time estimates, when appropriate, to calculate a fees' cost based on the personnel and the amount of their time that is involved in providing each service.

Summary Steps of the Study

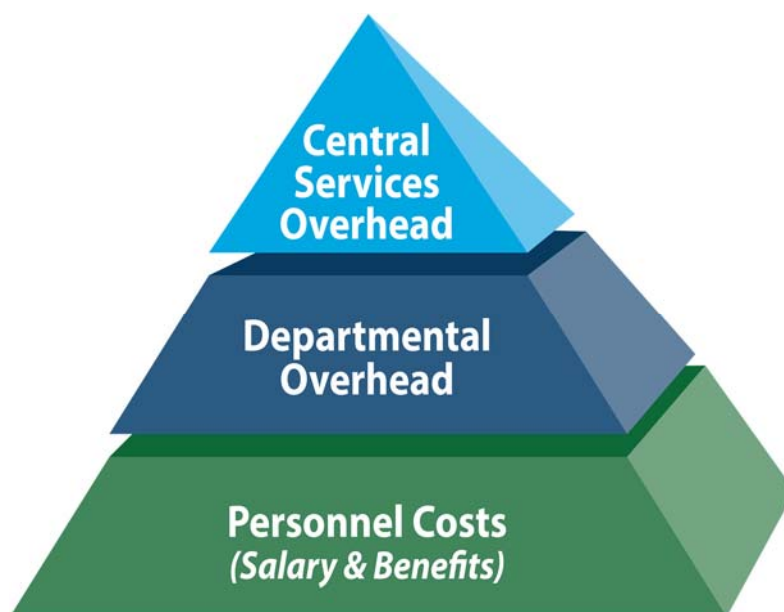

The methodology to evaluate most User Fee levels is straightforward and simple in concept. The following list provides a summary of the study process steps:

Allowable Costs

This report identifies three types of costs that, when combined, constitute the fully burdened cost of a service (**Appendix A**). Costs are defined as direct labor, including salary and benefits, departmental overhead costs, and the City's central services overhead, where departmental and central service overhead costs constitute support costs. These cost types are defined as follows:

- **Direct Labor (Personnel Costs):** The costs related to staff salaries for time spent directly on fee-related services.
- **Departmental Overhead:** A proportional allocation of departmental overhead costs, including operation costs such as supplies and materials that are necessary for the department to function.
- **Central Services Overhead:** These costs, detailed in the City's Cost Allocation Plan, represent services provided by those Central Services Departments whose primary function is to support other City departments.

Methodology

The two methods of analysis for calculating fees used in this report are the:

Case Study Method (Standard Unit Cost Build-Up Approach): This approach estimates the actual labor and material costs associated with providing a unit of service to a single user. This analysis is suitable when City staff time requirements do not vary dramatically for a service, or for special projects where the time and cost requirements are easy to identify at the project's outset. Further, the method is effective in instances when a staff member from one department assists on an application, service or permit for another department on an as-needed basis. Costs are estimated based upon interviews with City staff regarding the time typically spent on tasks, a review of available records, and a time and materials analysis.

Programmatic Approach: In some instances, the underlying data is not available or varies widely, leaving a standard unit cost build-up approach impractical. In addition, market factors and policy concerns (as opposed to actual costs) tend to influence fee levels more than other types of services. Willdan employed a different methodology where appropriate to fit the programs' needs and goals. Typical programmatic approach cases are facility use fees, penalties, and instances where a program cost is divided over the user base to obtain a per applicant cost for shared cost services.

Quality Control/Quality Assurance

All study components are interrelated, thus flawed data at any step in the process will cause the ultimate results to be inconsistent and unsound. The elements of our Quality Control process for User Fee calculations include:

- Involvement of knowledgeable City staff
- Clear instructions and guidance to City staff
- Reasonableness tests and validation
- Normalcy/expectation ranges
- FTE balancing
- Internal and external reviews
- Cross-checking

Reasons for cost increases/decreases over current fees

Within the fee tables in **Appendix C**, the differences identified between the full costs calculated through the study and the fee levels currently in effect. The reasons for differences between the two can arise from a number of possible factors including:

- Previous fee levels may have been set at levels less than full cost intentionally, based on policy decisions
- Staffing levels and the positions that complete fee and service activity may vary from when the previous costs were calculated

- Personnel and materials costs could have increased at levels that differed from any inflationary factors used to increase fees since the last study
- Costs that this study has identified as part of the full cost of services may not have been accounted for in a previous study
 - Departmental overhead and administration costs
 - Indirect overhead from the Cost Allocation Plan
- Changes in processes and procedures within a department, or the City as a whole

City Staff Contributions

As part of the study process, Willdan received tremendous support and cooperation from City staff, which contributed and reviewed a variety of components to the study, including:

- Budget and other cost data
- Staffing structures
- Fee and service structures, organization, and descriptions
- Direct and indirect work hours (billable/non-billable)
- Time estimates to complete work tasks
- Frequency and current fee levels
- Review of draft results and other documentation

A User Fee Study requires significant involvement of the managers and line staff from the departments—on top of their existing workloads and competing priorities. The contributions from City staff were critical to this study. We would like to express our appreciation to the City and its staff for their assistance, professionalism, positive attitudes, helpful suggestions, responsiveness, and overall cooperation.

Watsonville User Fees

Cost Recovery

The cost recovery models, by department/division fee type, are presented in detail in [Appendix C](#). Full cost recovery is determined by summing the estimated amount of time each position (in increments of minutes or hours) spends to render a service. Time estimates for each service rendered were predominately determined by Willdan and City Staff through a time and materials survey conducted for each department/division fee included in the study. The resulting cost recovery amount represents the total cost of providing each service. The City's current fee being charged for each service, if applicable, is provided in this section, as well, for reference.

It is important to note that the time and materials survey used to determine the amount of time each employee spends assisting in the provision of the services listed on the fee schedule is essential in identifying the total cost of providing each service. Specifically, in providing services, a number of employees are often involved in various aspects of the process, spending anywhere from a few minutes to several hours on the service.

The principle goal of this study was to identify the cost of City services, to provide information to help the City make informed decisions regarding the actual fee levels and charges. The responsibility to determine the final fee levels is a complicated task. City staff must consider many issues in formulating recommendations, and the City Council must consider those same issues and more in making the final decisions.

City staff assumes the responsibility to develop specific fee level recommendations to present to the City Council. Unfortunately, there are no hard and fast rules to guide the City, since many of the considerations are based on the unique characteristics of the City of Watsonville, and administrative and political discretion. However, in setting the level of full cost recovery for each fee, one should consider whether the service solely benefits one end user or the general community.

Subsidization

Recalling the definition of a user fee helps guide decisions regarding subsidization. The general standard is that individuals (or groups) whom receive a wholly private benefit should pay 100% of the full cost of the services. In contrast, services that are simply public benefit should be funded entirely by the general fund's tax dollars. Unfortunately, for the decision makers, many services fall into the range between these two extremes. The graphic on the following page illustrates the potential decision basis.

Further complicating the decision, opponents of fees often assert that the activities subject to the fees provide economic, cultural, "quality of life," or other community benefits that exceed the costs to the City.

It is recommended the City consider such factors during its deliberations regarding appropriate fee levels.

Of course, subsidization can be an effective public policy tool, since it can be used to reduce fees to encourage certain activities (such as compliance inspections to ensure public safety) or allow some people to be able to afford to receive services they otherwise could not at the full cost. In addition, subsidies can

be an appropriate and justifiable action, such as to allow citizens to rightfully access services, without burdensome costs.

Despite the intent, it is important for the City and public to understand that subsidies must be covered by another revenue source, such as the General Fund. Therefore, the general taxpayer will potentially help to fund private benefits, and/or other City services will not receive funds that are otherwise directed to cover subsidies.

Impact on Demand (Elasticity)

Economic principles of elasticity suggest that increased costs for services (higher fees) will eventually curtail the demand for the services; whereas lower fees may spark an incentive to utilize the services and encourage certain actions. Either of these conditions may be a desirable effect to the City. However, the level of the fees that would cause demand changes is largely unknown. The Cost of Service Study did not attempt to evaluate the economic or behavioral impacts of higher or lower fees; nevertheless, the City should consider the potential impacts of these issues when deciding on fee levels.

Summary

If the City's principal goal of this study were to maximize revenues from user fees, Willdan would recommend setting user fees at 100% of the full cost identified in this study. However, we understand that revenue enhancement is not the only goal of a cost of service study, and sometimes full-cost recovery is not needed, desired, or appropriate. Other City and departmental goals, City Council priorities, policy initiatives, past experience, implementation issues, and other internal and external factors may influence staff recommendations and City Council decisions. In this case, the proper identification of additional services (new or existing services) and creation of a consistent and comprehensive fee schedule was the primary objective of this study. City staff has reviewed the full costs and identified the "recommended fee levels" for consideration by City Council. The attached appendices exhibit these unit fees individually.

The preceding sections provide background for each department or division and the results of this study's analysis of their fees. For the full list of each fee's analysis, refer to **Appendix C** of this report.

Building & Fire Related Construction Fees

The Building Division, which includes new construction fire prevention functions, reviews all construction plans in a coordinated and efficient manner to ensure compliance with the Building and Fire Codes. The Building Division also inspects buildings during construction to ensure that they comply with these codes. In addition, building inspection staff provides information to citizens regarding home improvement regulations. The Building Inspection Division provides "one-stop" permit processing services to the public.

Analysis

Willdan individually reviewed the services and programs associated with the Building Division. The review also consisted of an evaluation of existing services in an effort to update the fee schedule.

The analysis of Building services relied primarily upon a standard unit cost build-up approach (except for the Building Permit program), whereby we determined the reasonable cost of each fee occurrence using staff time to recover the direct cost of staff and pro-rata share of departmental costs, including indirect costs for City Central Services. It is recommended that the City set most Building services at or near 100% cost recovery. As a result, there would be:

- an increase to 100 fees;
- 9 fees would see a decrease;
- 9 fees would remain as currently set, and;
- 28 new fees would be added as detailed in [Appendix C](#).

In addition to the fees listed under Building services, the Building Permit fees are also provided by this department. The City currently uses valuation to determine the cost of permits. Through the collection of time data for each construction type in ranged listed under the Building Permit table in [Appendix C](#) a new schedule was determined that would recover the full cost of providing these services. It is recommended the City adopt the new format and amounts for Building Permits as listed in [Appendix C](#).

The analysis of Fire Related Construction services, which are part of Community Development, relied primarily upon a standard unit cost build-up approach, whereby we determined the reasonable cost of each fee occurrence using staff time to recover the direct cost of staff and pro-rata share of departmental costs, including indirect costs for City Central Services. It is recommended that the City set Fire Related Construction services at the levels detailed in [Appendix C](#) for each fee. As a result, there would be:

- an increase for 17 fees;
- a decrease for 13 fees, and;
- 5 new fees would be as detailed in [Appendix C](#).

Planning

The Planning Division is responsible for 2 key functions: Current Planning and Advanced Planning. It is the division's goal to provide timely and effective management of these 2 functions. Current Planning involves the processing and review of various development applications for conformance with the City's Zoning Ordinance, General Plan, Specific Plans, and other land use policies. The planning division is responsible for reviewing applications and issuing permits pertaining to: Commercial and industrial design review, general proposed development, subdivisions and use permits. The processing of development applications includes the review of preliminary plans, proposed subdivisions, Zoning Administrator decisions and also the consideration of public input on formal development proposals at Planning Commission and Minor Land Division meetings, as well as City Council study sessions and meetings. Advanced Planning involves the City's long-range planning activities, which include updating and preparing various planning documents such as Specific Plans, the City's General Plan, and implementation of text amendments. Planning staff also assembles and maintains community data and demographics and coordinates the reporting of this data to outside agencies.

Analysis

Willdan individually reviewed the services and programs associated with the Planning Division. The review also consisted of an evaluation of existing services in an effort to update the fee schedule.

The analysis of Planning Services relied primarily upon a standard unit cost build-up approach, whereby we determined the reasonable cost of each fee occurrence using staff time to recover the direct cost of staff and the pro-rata share of departmental costs, including indirect costs for City Central Services. Willdan then compared the calculated full cost against the current fee amount to determine, if charged, whether the current fee is recovering the costs associated with the requested service. The analysis found that there many services are currently below the full cost of providing service. It is recommended that the City set most Planning Services fees at or near 100% cost recovery for most fees as detailed in [Appendix C](#), with some specific fees set to retain subsidies. As a result, there would be:

- an increase to 38 fees;
- 1 new fee will be added;
- 1 fee would see a decrease;
- 14 fees would remain as currently set, and;
- the average estimated fee increase for Planning would be at around 10%.

Appendix A – Total Allowable Cost to be Recovered

Below are the total allowable costs that may be recovered through User Fees; however, only a percentage of the total cost is realized as staff doesn't just work on services related to User Fees, but also works on an array of other City functions during the operational hours of the City. The amounts listed below will not reconcile to City budgets as costs that should not be included in overhead for personnel in the application of determining fully burdened hourly rates were excluded. Examples of these costs are capital, debt, monetary transfers, passthrough contract costs, and any other costs that is charged directly to the service requestor.

Appendix B – Fully Burdened Hourly Rates

Below are fully burdened hourly rates of staff positions that provide for the services detailed in [Appendix C](#). The FBHRs were used to determine the full cost of each service. They include the salary and benefit costs for each position as well as all applicable overhead amounts for each position. For positions in central service departments, such as the City Clerk and Finance, what is shown is the salary and benefit rate only, as the overhead of central service departments is recovered through the cost allocation plan. When a central service department position works on a fee or project in the purview of an operating department, the overhead rates of the operating department (shown in [Appendix A](#)) will be applied to that central service positions' salary and benefit rate for full cost recovery. For any user fee service request that is outside the scope of the fees detailed in [Appendix C](#), or for services for which there is no fee currently set, the City can charge up to the full cost of the FBHR for personnel involved.

The following tables provide the results of the analysis, resulting full cost recovery amount, and recommended fees. For fees in which the full cost, existing fee and suggested fee is listed as “NA”, the amount or percentage was not calculable based on cost data or variable fee structure. This is most common when either the current or the suggested fee includes a variable component that is not comparable on a one to one basis, a full cost was not calculated (for penalties and fines), or when there is not a current fee amount to compare against.

RESOLUTION NO. _____ (CM)

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF
WATSONVILLE ACCEPTING THE CITY OF WATSONVILLE
COMMUNITY DEVELOPMENT USER FEE STUDY – JANUARY 2020
AND ESTABLISHING AND ADOPTING FEES, RATES AND CHARGES
FOR THE COMMUNITY DEVELOPMENT DEPARTMENT**

EFFECTIVE DATE: MAY 5, 2020

Amends Resolution No's. 91-14 (CM) and 172-17 (CM)

WHEREAS, City staff has been working with Willdan Financial Services to complete an analysis of user fees; and

WHEREAS, this study focused on fees charged by the Community Development Department; and

WHEREAS, the last complete fee study was adopted by City Council on or about November 28, 2017.

**NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY
OF WATSONVILLE, CALIFORNIA, AS FOLLOWS:**

1. That the City of Watsonville Community Development User Fee Study – January 2020, a copy of which is on file in the Office of the City Clerk, is hereby accepted.

2. That the City Council hereby establishes and adopts fees, rates and charges as listed in Exhibit “A”, attached hereto and incorporated herein by this reference.

3. That the herein fees, rates, and charges effective May 5, 2020, shall henceforth be adjusted annually by the rate of the April to April change in the Consumer Price Index (CPI) for all Urban Consumers San Francisco-Oakland-San Jose, California, rounded to the next whole dollar, unless a difference adjustment is directed

by Council resolution. Changes shall be effective July 1 of each year beginning on July 1, 2021.

4. That the aforementioned amended fees, rates, and charges shall supersede any and all fees of the City inconsistent therewith and shall be effective immediately.

CDD Fee Study

Cindy Czerwin, Administrative Services Director

Suzi Merriam, Community Development Department Director

Background

- ▶ City completed a fee study in 2017 for the entire City
- ▶ CDD is in the process of implementing a new permitting system
- ▶ As part of the implementation of the new system, we decided to review fees to better align them with current practices and the new system
- ▶ Increased revenue and cost recovery was not a primary goal of this study
- ▶ Contracted with Willdan Financial Services to conduct the study

User Fee Background

- ▶ User Fees fund programs and services that provide limited or no direct benefit to the community as a whole, rather they recover costs associated with the provision of services benefiting a specific user
- ▶ Fees, according to state law, cannot be in excess of the estimated cost of providing the service
- ▶ To the extent that a user fee does not fully recover the cost of providing the service, the costs are subsidized by other funds, in our case, but the General Fund

Study Scope, Goals, and Process

- ▶ Includes fees related to Building, Fire Related Construction, and Planning fees
- ▶ Primary Goals: fee update, simplification
- ▶ Willdan created a model which creates a fully burdened rate for each position providing the services
- ▶ City staff then went through each and every service to review and update the estimated amount of time it takes to provide the service, this calculates the full cost
- ▶ Staff then reviewed the full cost and determined the proposed fee which is something less than full cost based, primarily based on rounding and consistency across the fees.

► New Schedule

1	Electrical Rewire Single Family and Multi Family Residential	\$135.00
2	Residential, Buildings, Rewire-Garages, carports (attached or detached) parking structures	\$135.00

New Construction Schedules

- ▶ City currently has 3 different schedules based on Construction Type
- ▶ Updated to ensure it includes all ICC Occupancy types
- ▶ Only 1 schedule, no differentiation based on Construction type, based on square footage and ICC Occupancy Type
- ▶ Calculated based on estimated hours of Inspection time

Recommendation

- ▶ Staff recommends Council approval of a resolution adopting the proposed fee schedules to be effective May 5, 2020, thereafter increase each year by the San Francisco Bay Area Consumer Price Index (CPI) from April to April every July beginning on July 1, 2021

FROM: Nick Calubaquib, Director of Parks and Community Services

SUBJECT: Resolution Adopting the (1) 2020 Parks and Recreation Strategic Plan, (2) Ramsay Park Master Plan and (3) City Plaza Master Plan

AGENDA ITEM: February 11, 2020 **City Council**

RECOMMENDATION:

Staff recommends that the City Council adopt a Resolution adopting:

1. The 2020 Parks and Recreation Strategic Plan,
2. Ramsay Park Master Plan, and
3. City Plaza Master Plan

DISCUSSION:

Background

Our community's parks and recreation programs and facilities improve the quality of life of our residents and although the City offers a myriad of exceptional services, the Parks and Community Services Department has the potential to deliver services more effectively, more strategically, and more future focused. Post recession and after years of deferred maintenance, there is a need to move the community's parks and recreation system forward and into the future to ensure that we continue to meet our community's needs.

On November 27, 2018, the Council received a report regarding an intent to develop a Parks and Recreation Strategic Plan and to develop park specific Master Plans for the City Plaza and Ramsay Park

In order to accomplish this, on December 11, 2018, the Council approved an agreement with Verde Design, Inc. to develop a Strategic Plan for Parks and Recreation and Park Master Plans for Ramsay Park and City Plaza. The overall purpose of these initiatives was to engage the community to develop strategic direction for the development, expansion and rehabilitation of parks and recreation programs, services and facilities.

Strategic Plan for Parks and Community Services

In 2009, the Council adopted our current Parks and Recreation Master Plan. The purpose of this document was to serve as the “overarching plan for the development and implementation of future parks and recreational opportunities.” The process involved a comprehensive community engagement effort and identified goals and priorities for parks and recreation services. However, largely due to the recession, the document has essentially been shelved and minimal Progress has been made on this plan to date. The document also lacked tangible, action-oriented steps that could be developed into a work plan.

Following years of deferred maintenance, the needs of the City’s parks and recreation facilities are greater than the resources currently available to the City. These revitalization needs are the result of factors ranging from outdated equipment, to ADA upgrades, to technological advances, to modernizing facilities to meet the current needs of the community.

The goals of the Strategic Plan process were to:

1. Update/reaffirm community goals for parks and recreation programs and facilities
2. Define community-driven prioritization of park/facility projects and recreation programs for development, expansion and revitalization
3. Develop an action plan to move these projects/initiatives to action

The end result of this initiative is this 2020 Strategic Plan that will serve as an addendum to our Parks and Recreation Master Plan and provides an action plan that is relevant, practical, and achievable given our economic constraints and potential. This plan addresses current funding mechanisms and identifies future funding opportunities. The document is the written Plan to integrate the most innovative thinking in parks revitalization, capital and operations funding, cost recovery and economic development through improved design and access to recreation options.

The Strategic Plan document includes the following sections:

1. Existing Parks and Recreation Master Plan and Existing Conditions
2. Community Engagement Process
3. Future Park and Recreation System – Goals and Recommendations
4. Plan of Action

Park Master Plans for Ramsay Park and City Plaza

Park master plans create a vision and plan for the entirety of park sites, rather than looking solely at individual features of a park. These plans allow staff to plan forward and realize the full potential of park spaces so that as conversations are furthered concerning amenities such as restrooms, soccer fields, pump tracks and others, they are conducted with an overall plan in place as to not impede opportunities for future amenities and expansions.

Ramsay Park and the City Plaza have historically been identified and prioritized as the City’s most significant and highly used park assets. Over the past decade to present day, the City has prioritized investment in improvements to amenities at both of these sites;

however, long-term vision plans have not been established. The creation of Park Master Plans for these individual park sites, developed through high levels of community engagement as part of the Strategic Planning process, identify priorities and needs and establish a vision for these community assets. These plans also create an opportunity to reimagine how existing uses and history may be woven together with an updated modern perspective. The proposed Park Master Plans for the City Plaza and Ramsay Park are included in the Strategic Plan.

These plans better position the City for funding opportunities and increase chances of obtaining grant funding, private funding and public buy-in for fundraising and bonds.

Next Steps

If the 2020 Strategic Plan is approved, these following next steps will be implemented:

Parks and Recreation Strategic Plan

Timeline	Action Item
February 2020	Finalize five-year work plan that supports the implementation of Strategic Plan goals
March 2020	Begin implementation of five-year work plan

City Plaza Master Plan

Timeline	Action Item
February 2020	Begin developing construction documents for permanent restroom
Spring 2020	Potential announcement of Proposition 68 grant awards
Summer 2020	Begin construction of permanent restroom

Ramsay Park Master Plan

Timeline	Action Item
Fall 2020	Begin construction of Watsonville Slough Trail Connector Project (funded by Urban Greening Grant)
Fall 2020	Begin Construction of Bicycle Pump Track
2021	Begin design and construction of Dog Park (pending release of Proposition 68 Per Capita Grant Funds)

STRATEGIC PLAN:

The Council's adoption of this resolution is consistent with the Council's priorities of:

- Infrastructure & Environment (Deferred Asset Management, Long-Range Capital Improvement Plan) by developing an understanding of deferred and on-going maintenance needs for community parks and recreation assets as well as planning for preventative maintenance and future development
- Economic Development (Downtown Revitalization) by developing a master plan for the City Plaza in the heart of downtown
- Community Engagement & Well-Being (Parks and Community Services, Youth Activities & Programs) by developing an actionable plan to improve the quality of life for residents by advancing our community's parks and recreation services

FINANCIAL IMPACT:

The original agreement with Verde Design, Inc. for this work was for an amount not to exceed \$175,918 and was appropriated from the General Fund in Fiscal Years 2018-2019 and 2019-2020.

ALTERNATIVES:

The City Council may choose to:

1. Adopt the Strategic Plan with recommended changes
2. Not adopt the Strategic Plan

ATTACHMENTS: None.

Hello City Council-

I'm reluctant to say anything about this but I saw this on the new parks plan and was a bit confused. Adding another bust seems cool, but why remove George?

Forgive me if I am missing something here in regards to history, but what sort of message would this send?

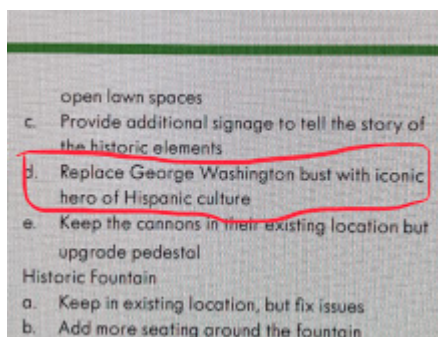

Our family is mixed Caucasian and Hispanic. We have grandparents born in Europe and Mexico. How do I explain to my daughter why they removed the caucasian looking guy and replaced him with the hispanic looking person?

I don't want to get too far into race politics, but this seems a bit divisive. At the very least, it's easy to read it that way. As if to say one group is welcome to use The Plaza while we prefer the other group stay home.

My opinion: Have two busts. Heck, have 10.

open lawn spaces

- c. Provide additional signage to tell the story of the historic elements
- d. Replace George Washington bust with iconic hero of Hispanic culture
- e. Keep the cannons in their existing location but upgrade pedestal

Historic Fountain

- a. Keep in existing location, but fix issues
- b. Add more seating around the fountain

City Parks System

Parks Overview & Issues

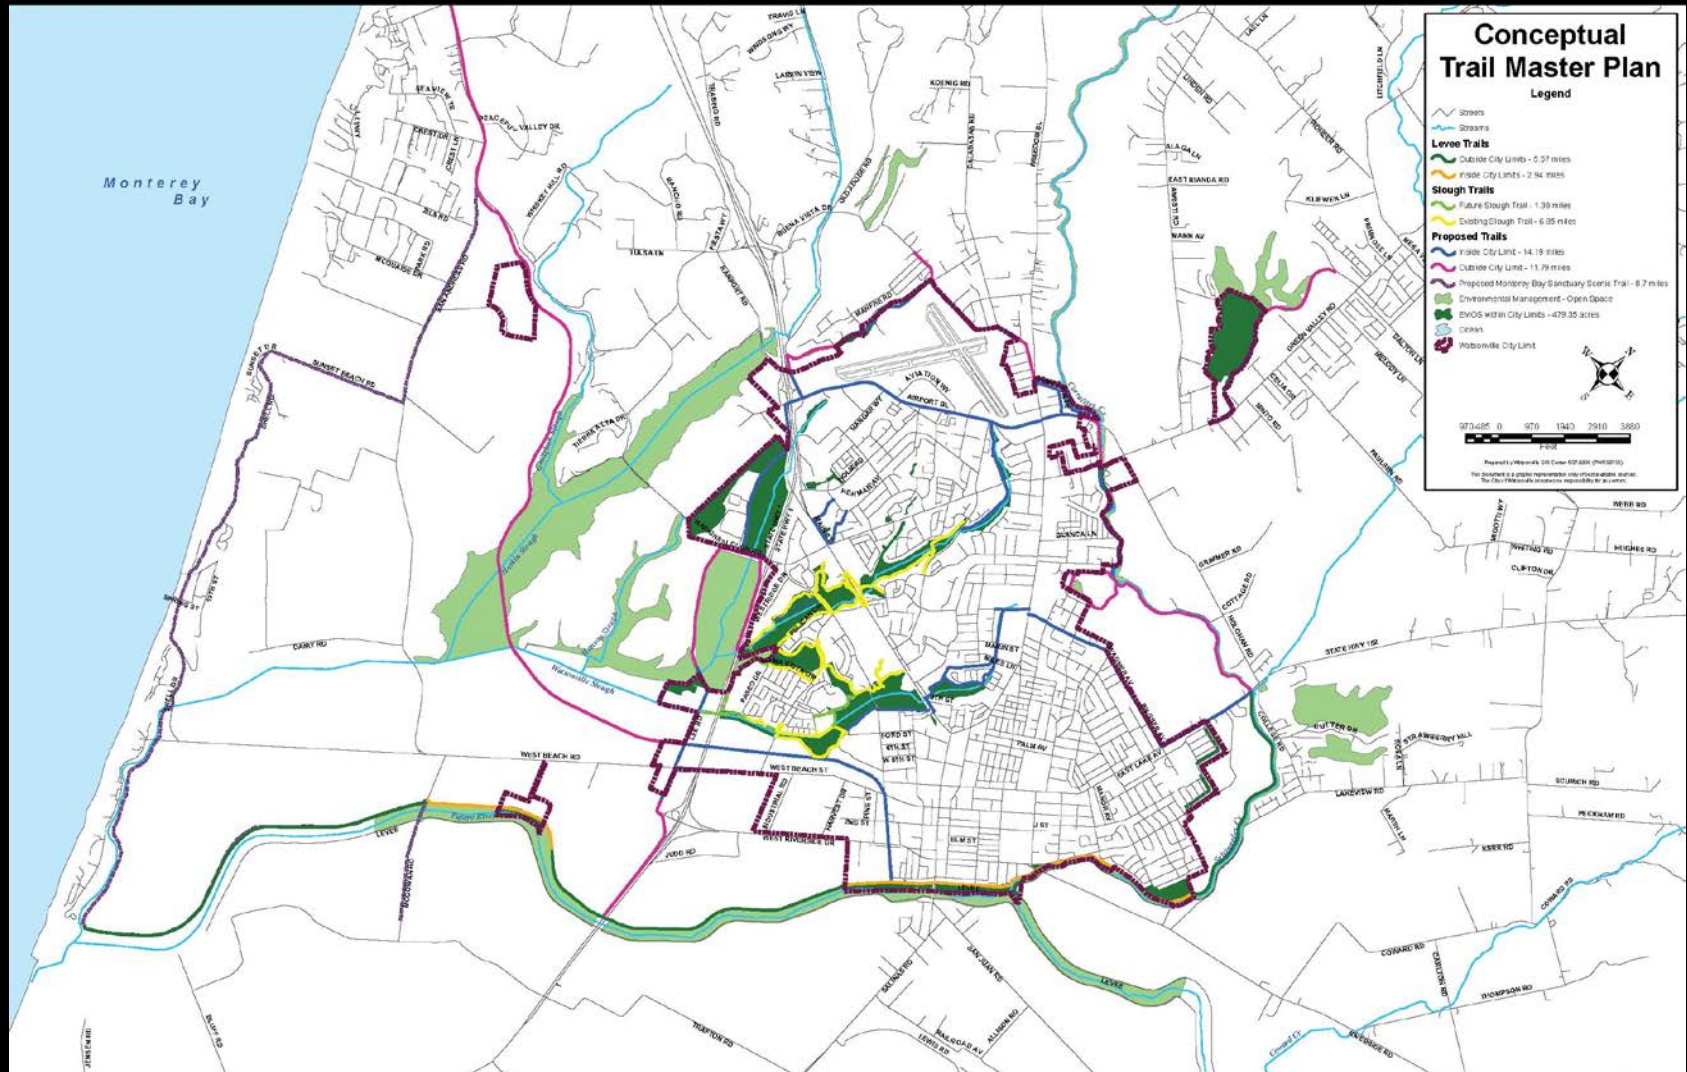

Park Types

• City has 3 Community Parks	118.43 acres
• City has 4 Neighborhood Parks	11.11 acres
• City has 19 Pocket Parks	13.80 acres
Total acreage of Parks:	143.34 acres

Park Issues to focused on

- ADA Compliance – paths of travel
- Concrete and asphalt paving – age, condition and safety
- Fencing and gates - condition
- Playgrounds – code compliance, age, condition, viability
- Plant material – age, condition, sustainability, maintenance
- Site Furnishings – age, condition, need standards

City Park Trail System

Trails Overview & Issues

Trail Types

• City Levee Trails	2.94 miles
• City Existing Slough Trails	6.85 miles
Total Miles of Existing Trails:	9.79 miles
• City Proposed Slough Trails	1.38 miles
• City Proposed Trails	14.19 miles
Total Miles of Proposed Trails:	15.57 miles

Trails Issues to focused on

- Safety - night lighting, plant material and hiding places
- ADA accessibility - code compliance, safety, usability
- Extent of the trail system - complete loop, connect to destinations
- Overall system - connect to County trails, Pinto Lake, the beach

City Parks & Trails Findings

- Residents are underserved by city parks.
- There are barriers getting to and from parks.
- There are limited resources for maintenance, repair and renovation of existing parks, recreation facilities, park entrance ways and parking lots.
- There could be more children's play equipment, picnic areas, and barbeque sites.
- Graffiti is a major maintenance challenge.
- There are not enough indoor facilities and shaded outdoor recreation areas.
- Need more facilities for active sports and lit facilities.
- Trail system is incomplete for city wide circulation.
- Trail system does not feel safe at night.

Strategic Plan Goals

Goal 1: Exceptional Parks and Facilities

- Provide safe, well-maintained and accessible parks and facilities

Action Items

- Prioritize the deferred maintenance of existing facilities, the implementation of maintenance standards, and ADA improvements for all parks and facilities.
- Increase park facilities, especially on the northeast of the City, to work towards the Strategic Plan's goals for parks and park lands per capita of 1,000 residents.
- Develop joint use agreements with the Pajaro Valley Unified School District, churches and other landowners.
- Expand and improve access and connections to parks, open spaces and community destinations.
- Identify Funding and design high priority facilities. Including:
 - City Plaza
 - Ramsay Park
 - Sports Fields
 - Indoor Gymnasium

Strategic Plan Goals

Goals 2: Impactful Programs

- Celebrate Watsonville's cultural heritage, and encourage community building through the provision of programs, services, events and facilities that are culturally relevant, responsive to community priorities, and that support health and wellness, personal development, and public safety.

Action Items

- Create a public art program that highlights Watsonville's cultural heritage throughout the community and in parks, trails and recreational programs.
- Increase the quality and quantity of programs and events that celebrate the City's rich agricultural history, cultural heritage and natural resources.
- Increase community engagement and partnerships with schools, healthcare agencies, community organizations in the design and development of programs and facilities.
- Create a community that values youth by fostering developmental assets and increasing program coordination, especially during after school, evening and weekend hours.
- Champion an Action Plan to create an Age-Friendly community and expand programs and services for older adults.

Strategic Plan Goals

Goal 3: One High Performance Team

- Ensure organizational effectiveness and fiscal stability for long-term community benefit

Action Items

- Develop sustainable funding sources for implementation of the Strategic Plan, deferred maintenance, priority projects, and on-going operations.
- Balance cost recovery with community access.
- Builds an innovative, responsive, and dynamic team, and organization.
- Develop and foster partnerships with other departments, schools, public and private organizations and community members to maximize resources in order to meet community needs.

Strategic Plan Priorities

Project Prioritization – Highest to Lowest

- Address parks deferred maintenance and upgrades
- Construction of City Plaza Conceptual Plan
- Phased construction of Ramsay Park conceptual design:
 - Bike Pump Track Area
 - Dog Park Area
 - Soccer Fields upgrades
 - Synthetic Turf Multi-use Field Area
 - Ramsay Family Center Expansion, northern parking lot, Main Street Parking lot
 - Hilltop Playground and Picnic Area
 - Nature Center and Outdoor Basketball Court Area
- Address trails deferred maintenance and extensions
- Work with local schools, churches, and other landowners to create land use and maintenance-based partnerships to meet the needs of the public
- Construction of multi-generational Community Center

Financial Implications

- Needs: \$18.2 million in deferred maintenance
- Does not account for renovations of other parks, development and maintenance of new parks/facilities or expansion of recreation programs

Financial Implications

Current Capital Funding

- Capital Improvement Program - approx. \$250,000 annually
- Park Development Fund - average of \$110,000 annually
- Community Development Block Grant (CDBG) - approx. \$300,000 annually

Financial Implications

Funding Next Steps and Opportunities

- Update and align the CIP with the Strategic Plan
- Update the existing recreation and parks facilities impact fees
- Develop a strategy for how best to use/leverage sales tax measure revenues (i.e., accrue each year and use for O&M vs. issue a bond backed by the annual revenue)
- Reevaluate and potentially update the City's current user fees,
- Pursue appropriate grant funding opportunities
- Pursue in-kind improvements in partnership with developers (Development Agreements) as opportunities arise.
- Explore opportunity for a parcel tax for parks

Next Steps

- Prioritize Funding Opportunities
- Finalize Five-year Work Plan (Strategic Action Plan)

Staff recommends that the City Council adopt a Resolution adopting the 2020 Parks and Recreation Strategic Plan
