</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Turn On</td>
<td>Press and hold the button for 3 seconds.</td>
</tr>
<tr>
<td></td>
<td>Turn Off</td>
<td>Press and hold the button until &quot;Goodbye&quot; message appears.</td>
</tr>
<tr>
<td></td>
<td>Display Wake-Up</td>
<td>When the display is off (sleep mode), the first quick press of the button wakes up the display.</td>
</tr>
<tr>
<td></td>
<td>Info Display</td>
<td>When the display is on, press the button quickly to go through the device menu and information.</td>
</tr>
</tbody>
</table>

**First time use**
When you first turn on your new device, you might see a setup wizard to help get you started. Look at the steps below to walk through the setup process. You can use your T9 as a wireless mobile hotspot to connect to a total of 8 Wi-Fi capable devices to the mobile broadband network.

**Wi-Fi Name (SSID) and Password:**
You can find your Wi-Fi Name and Password any time you need. Just press the power/menu button shortly when the display is on.

1. **Power on your hotspot**

   Press quickly

   Wi-Fi Name display

   Password display
2. Open the Wi-Fi application or controls on your laptop or Wi-Fi capable device that you want to connect to your T9. Then find your T9’s Wi-Fi name.
3. Click **Connect** and enter the Password when prompted
4. Open your browser and you are good to go!
